MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the City Auditor on or before the second day of the month.

If approved by him and by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Tuesday of each month.

JAMES H. MORRIS,

City Auditor.

ORDINANCES AND JOINT RESOLUTIONS

PASSED DURING THE

YEAR ENDING JANUARY 8, 1901.

CITY OF CONCORD.

ORDINANCES.

AN ORDINANCE IN AMENDMENT OF SECTION 27, CHAPTER 18, OF THE REVISED ORDINANCES, RELATING TO THE FIRE DEPARTMENT.

Be it ordained by the City Council of the City of Concord, as follows :

That Section 27 of Chapter 18 of said Revised Ordinances is hereby amended by striking out the word ten and inserting the words twenty and fifteen, so as to read as follows: The annual pay of assistant engineer at Penacook shall be (\$25.00) twenty-five dollars, West Concord (\$20.00) twenty dollars, and East Concord (\$15.00) fifteen dollars.

This ordinance to take effect from the commencement of the current year.

Passed Feb. 13, 1900.

AN ORDINANCE AMENDING AN ORDINANCE PASSED JAN. 10, 1899, AND AMENDED MARCH 14, 1899, RELATING TO THE PRINTING OF THE CITY REPORTS.

Be it ordained by the City Council of the City of Concord, as follows :

That Section 1 of said ordinance be amended by striking out the words "fifteen hundred" and inserting in place thereof the

words "two thousand," so that amended section shall read as follows:

SECTION 1. There shall be printed annually, under the direction of the city auditor, two thousand (2,000) copies of the financial reports of the city, together with all of the annual reports of the city officials and heads of departments required to be made to the city council; the reports of all the boards of education in the city, vital statistics, and such other matter as the city council may order, for general distribution among the citizens of Concord. Said report shall be prepared and issued on or before April 1st in each year.

Passed Feb. 27, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR, FOR THE USE OF THE CITY.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within said city the sum of fifty thousand dollars, to defray the necessary expenses and charges of the city for the ensuing financial year, which, together with the sums which may be raised by taxes on railroads and from other sources, shall be appropriated as follows:

SECT. 2. There shall be raised in like manner the sum of thirty-six thousand, one hundred and thirty-five (\$36,135) dollars for the support of schools for the ensuing financial year, which, together with the income of Abial Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing, there is appropriated for the cemeteries of the city one half of the income from the sale of lots and the income derived from the care of lots and grading, which sum shall be deposited by the superintendents, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries, and so much of the income from these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year, and the remainder, in each instance, credited to the individual funds.

SECT. 4. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the sewerage precinct of said city the sum of eight thousand, six hundred nine dollars and seventeen cents (\$8,609.17), which shall be

appropriated as follows: For construction and repairs, \$4,000; for the payment of a note and interest due November 20, 1900, two thousand sixty-four dollars and seventeen cents (\$2,064.17); for the payment of interest on sewer bonds of said precinct, two thousand, five hundred forty-five dollars (\$2,545).

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE GAS PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estate in the gas precinct of said city, the sum of ten thousand, seven hundred fifty dollars (\$10,750), which sum shall be appropriated as follows: For lighting the streets in said precinct.

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT, FOR THE ENSUING YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct the sum of two thousand, two hundred and sixty dollars (\$2,260) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows: For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, \$1,000; for the payment of interest that may become due on precinct bonds, \$760; for repairs and maintenance of sewers, \$500.

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE CITY SPRINKLING PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That there shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the city sprinkling precinct, the sum of four thousand, eighty-nine dollars and seventy-eight cents (\$4,089.78) which, together with the unexpended balance of 1899, amounting to four hundred fifty-eight dollars and thirty-five cents (\$458.35) shall be appropriated as follows: For the payment of a note which becomes due Dec. 20, 1900, \$1,548.13, for sprinkling in said district, \$3,000.

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE WEST CONCORD SEWERAGE PRECINCT, FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That there shall be raised, and that there is hereby ordered to be raised, on the polls and ratable estates within the West Concord sewerage precinct the sum of eleven hundred and eighty dollars (\$1,180) to defray the necessary expenses and charges for said precinct for the ensuing financial year, which sum shall be appropriated as follows:

For the payment of the sum becoming due, in accordance with an ordinance establishing a sinking fund, five hundred dollars (\$500).

For the payment of interest that may become due on precinct bonds six hundred and eighty dollars (\$680).

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE EAST CONCORD SEWERAGE PRECINCT, FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the East Concord sewerage precinct, the sum of one hundred and seventy dollars (\$170) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the payment of the sum becoming due in accordance with an ordinance establishing a sinking fund, one hundred dollars (\$100).

For the payment of interest that may become due on precinct bonds, seventy dollars (\$70).

SECT. 2. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE IN AMENDMENT OF CHAPTER 21 OF THE REVISED ORDINANCES DEFINING THE SPRINKLING PRECINCT:

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. Said precinct shall include in addition to the territory described in said chapter 21, the following territory: Northerly from the junction of North State and Rumford streets to the main entrance of the New Hampshire state prison on North State street; also that portion of Bridge street beginning at the westerly end thereof at its junction with North Main street, thence extending easterly to the westerly end of the

Loudon Bridge; also that portion of School street beginning at its junction with Holt street thence extending westerly to Giles street; also that portion of Broadway beginning at its junction with West street, thence extending southerly to Pillsbury street.

SECT. 2. Said additional territory embraced within the boundaries described in section 1 of this ordinance shall include all lands abutting on said streets within said boundaries.

SECT. 3. This ordinance shall take effect and be in force upon its passage.

Passed March 13, 1900.

AN ORDINANCE RELATING TO LICENSING PLUMBERS AND THE APPOINTMENT OF AN EXAMINING BOARD.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. No person, firm, or corporation shall engage in, or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, unless such person, firm, or corporation has received a license or certificate in accordance with the provisions of the rules and regulations relating thereto.

SECT. 2. Any person not engaged in or working at the business of plumbing prior to March 9, 1899, and desiring to engage in or work at said business, either as a master or employing plumber, or as a journeyman plumber, in the city of Concord, shall apply to the board of health, and shall, at such time and place as may be designated by the board of examiners, hereinafter provided for, to whom such application shall be referred, be examined as to his qualifications for such business.

SECT. 3. On or before the first day of April, 1900, every master or employing plumber, and every journeyman plumber, engaged in or working at the business of plumbing in this commonwealth, prior to March 9, 1899, and desiring to engage in or work at such business in the city of Concord, shall personally register to his name and address, at the office of the board of health, and state, after being sworn, where and how long he has been engaged in or worked at said business, and whether as a master or employing, or as a journeyman plumber.

SECT. 4. Said board of health, if satisfied that the person so

registered was actually in or working at said business, prior to said date, shall thereupon issue to him a certificate setting forth that he was engaged in or working at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, as the case may be, prior to the 9th of March, 1899, and authorizing him to engage in or work at said business, either as a master or employing plumber, or as a journeyman plumber. The fee for a master employing plumber shall be \$2.00, for a journeyman plumber, \$1.00. In case of a firm or corporation, the examining and licensing of, or the registration of and granting a certificate to any one member of the firm or the manager of the corporation, shall satisfy the requirements of these rules and regulations.

SECT. 5. There shall be a board of examiners of plumbers for the city of Concord, consisting of the chairman of the board of health, the city engineer, and a third member, appointed by the mayor, who shall be a practical plumber of at least five years' continued, practical experience next preceding the date of the appointment. Said third member shall be appointed for one year, at the regular meeting in March.

SECT. 6. Said board of examiners shall hold office until their successors have been elected and qualified, and to serve without compensation.

SECT. 7. Said board of examiners shall, as soon as may be, after their appointment, meet and organize by the selection of a chairman, and shall then designate the times and places for the examination of all applicants desiring to engage in or work at the business of plumbing, within the city of Concord. Said board shall examine said applicants as to their practical knowledge of plumbing, house drainage, and plumbing ventilation, according to forms and rules hereafter to be adopted, and if satisfied of the competency of the applicant, shall so certify to the board of health, who shall thereupon issue a license to such applicant, authorizing him to engage in or work at the business of plumbing, in said city, either as a master or employing plumber, or a journeyman plumber. The fee for a license for a master or employing plumber shall be \$2.00; for a journeyman plumber, it shall be \$1.00; and said license shall be renewed annually, on or before April 1, upon the payment of a fee of \$0.50.

SECT. 8. All fees to be paid to the city treasurer.

SECT. 9. This ordinance shall be in force and take effect upon its passage.

Passed March 13, 1900.

AN ORDINANCE IN AMENDMENT OF SECTION THIRTY OF AN ORDINANCE PASSED NOVEMBER 13, 1894, RELATING TO THE FIRE DEPARTMENT.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. That section 30 of an ordinance passed November 13, 1894, relating to the fire department is hereby amended by striking out the words Hook and Ladder Truck and Steamer, and inserting the words Chemical Engine and Horses, so as to read as follows: The drivers and horses of the chemical engine and one hose wagon shall at all times be on duty at the Central Fire Station to attend to all fire alarm calls.

SECT. 2. This ordinance shall take effect on its passage.

Passed May 8, 1900.

AN ORDINANCE DEFINING THE RULES AND REGULATIONS FOR THE MATERIALS, CONSTRUCTION, ALTERATION AND INSPECTION OF ALL PLUMBING, HOUSE DRAINAGE, AND SEWER CONNECTIONS.

Be it ordained by the City Council of the City of Concord, as follows:

SECTION 1. The sanitary officer of the board of health shall, in addition to the duties required of him under the City Ordinance relating to public health, be charged with the enforcement of the rules and regulations hereinafter contained, and with the enforcement of all other rules and regulations that may be adopted by the City Council in the interest of public health, and shall perform all other duties of like kind that may be from time to time prescribed by the laws of the state and by the ordinances of the city. Said sanitary officer shall be well versed in matters pertaining to sanitary regulations in testing drainage systems and in making examinations of plumbing work; he shall be of temperate habits and capable of keeping all books and records that shall be required of him, and shall make an annual report to the board of health in accord with

Section 5, Chapter 14, City Ordinance, including in said report a record of plumbing work inspected, number of permits granted, and any other data that in his judgment would be of interest to the public.

SECT. 2. For services rendered the sanitary officer shall receive the sum of one thousand dollars per annum, payable monthly.

SECT. 3. Every person who shall carry on the business or do any work of plumbing in the city of Concord, shall register his name and place of business in the office of the board of examiners of plumbers, and notice of any change in the place of business of a registered plumber shall be immediately given to the board. This section shall not apply to employes while working for a registered plumber.

SECT. 4. Every plumber before doing any work in a building, except the repairing of leaks and the replacing of broken fixtures, such as sinks, marble or slate slabs, earthen or crockery ware, and the opening of obstructed and frozen pipes, and the replacing of leaking traps and their branches, shall file at the office of the board of health, upon blanks for that purpose, a description and sketch of the work to be performed, and no such work shall be commenced without the approval of said board or the sanitary officer.

SECT. 5. The plumbing of every building shall be separately and independently connected with the public sewer, where such sewer is within one hundred feet of said premises, unless permission is given by the board of health or the sanitary officer to connect in some other way. When there is no public sewer the plumbing shall be connected with a private sewer or with a cesspool, of a construction and capacity approved by said sanitary officer.

SECT. 6. The main drain of any building from a point four feet outside the interior face of the foundation wall to a point inside the cellar, shall be of cast-iron of a sufficient size, not less than four inches in diameter, of a weight not less than hereinafter specified. Said main drain shall be carried open up through the roof to a sufficient height, not less than two feet above said roof, and not less than five feet above the top of any window within fifteen feet. Should a water closet be connected with said main drain, the latter shall not be less than four inches throughout its entire length. If no water-closet is

to be connected, the main drain may be reduced inside the cellar wall to not less than two inches in diameter; provided, however, that said main drain is again increased to four inches in diameter before passing through the roof.

SECT. 7. Whenever any drain or ventilating pipe shall be run outside of a building, before going through the roof, all such exposed pipe shall not be less than four inches in diameter. If a second line of pipe is connected with the main drain, said main drain must be increased at the point of such connection to not less than four inches in diameter, and continue to the sewer or cesspool undiminished. All pipes which pass through the roof of any building shall be connected to the roof-flange with a tight joint. Change in direction shall be made with curved pipes, off-sets or bends, and all connections to inclined runs with Y branches. The main drain and all other pipes shall, so far as is practicable, be laid above the floor of the basement or cellar, and be exposed to sight. They shall be properly secured by irons to walls or floor timbers, and shall not be exposed to external pressure where they pass through or under any wall.

SECT. 8. That part of the drain which is outside of the building and more than four feet from the foundation wall, shall be of cast-iron pipe of the same description as that within the building, with lead joints or vitrified salt-glazed earthen pipe with cement joints. It shall be laid, where practicable, in a straight line, with a uniform fall not less than one fourth inch per foot. No house drain or private sewer shall pass under another house or within four feet of the wall thereof, except by written permission of the board of health. Every drain shall have a clean-out at base of stack and at point where main drain leaves building when said drain is not in a straight line from base of said stack, and clean-outs of all kinds shall be provided with screw-caps.

SECT. 9. Rain-water leaders shall never be used as soil, waste, or vent pipes, but shall be carried to a point five or more feet outside of the foundation wall before being connected with the main drain, and the main drain shall be enlarged at the point where the rain-water leader enters it. When rain-water leaders are within the house they must be of cast-iron pipe with leaded joints, or of copper with soldered joints; when outside of the house and connected with house drain, it must,

if of sheet metal with slip joints, be trapped beneath the ground or just inside of the wall, the trap being arranged so as to prevent freezing. In every case where a rain-water leader opens near a window or light shaft it must be properly trapped.

SECT. 10. Soil-pipes shall be of cast-iron and not less than four inches in diameter. Other waste lines shall be of lead, cast-iron, or brass, and of not less than the following sizes, viz.: for wash-basins, bath-tubs, laundry-tubs, urinals, and sinks, not less than one and one fourth inches; for slop-hoppers, not less than three inches. All fittings used in connection with cast-iron pipe shall correspond with it in weight and quality. All cast-iron pipe and fittings to be tar-coated.

SECT. 11. Every building used as a dwelling in which plumbing arrangements are to be placed shall be supplied with a water-closet for every fifteen persons. Each room or stall in which a closet is set shall be well lighted and ventilated, preferably with a window communicating directly with the outer air. No water-closet shall be set in a cellar or basement without permission of the board of health. Every water-closet or line of water-closets on the same floor shall be constantly supplied with water from a tank or cistern, and each closet shall have a flushing pipe of not less than one and one fourth inches in diameter. No pan-closet shall be set. No direct supply closet shall be set unless located outside of the building proper in places where tanks cannot be made secure from frosts, and no such location of closets shall be allowed unless the board has become satisfied that it is impracticable to put closets in the building proper. When direct supply closets are allowed they shall receive their water supply directly from the main fixtures, service pipes, and connections approved by the board of health. In cases where the regulations in regard to water-closets have been fully complied with the construction and maintenance of urinals is optional with the owner of the property excepting that in any special case; when it shall appear necessary either in old or new buildings, the board of health may require such a urinal to be constructed and maintained. When a urinal or urinals are provided all regulations that shall be in force in regard to water-closets shall apply to such urinal or urinals, except as to limit of the number of persons using said fixtures, and also that said fixtures may be supplied with a flushing pipe connected directly with the water main through fixtures, ser-

vice pipes, and connections approved by the board of health. No water-closet shall be encased in woodwork.

SECT. 12. The waste pipe of each and every sink, basin, water-closet, and of each set of trays or other fixtures except bath-tubs, shall be furnished with a separate trap which shall be placed above the floor of the room in which the fixture stands. The waste pipe of each and all bath-tubs shall be furnished with a trap acceptable to the sanitary officer, which shall be placed as near the fixture it serves as is practicable.

SECT. 13. Traps must be protected from syphonage and ventilated by special lines of cast-iron vent pipe not less than two inches in diameter, except round traps five inches or more in diameter serving bath-tubs and wash-trays, and when the delivery pipe from a trap to a line of pipe running through the roof is four feet or less in length, measure to be taken from the centre of the trap to the hub of the fitting on the pipe, running through the roof. The short lines from these branches to each trap, if exposed to view, may be of lead or brass. They shall be two inches in diameter for water-closet traps, and of the same size as the waste pipe for other traps. Vent pipes for water-closet traps when more than thirty feet in length, shall be three inches in diameter. All vent pipes must extend at least two feet above the roof, or they must connect with the soil-pipe above the highest fixture, and in no case shall they terminate in a chimney-flue. They shall be run as direct as possible. Bow venting will not be allowed unless connected in such manner as to prevent pockets being formed. If less than four inches in diameter they shall be enlarged to that size before passing through the roof.

SECT. 14. Local vents of water-closets or urinals, when provided, must not be connected with any vent pipe, but must be carried into a heated flue provided for the purpose, or into the kitchen chimney. The board of health may require a local vent in any special case.

SECT. 15. All cast-iron pipe through which the discharge of any water-closet passes, and all pipe which is buried in the earth inside of any building or runs within four feet of the interior face of a foundation wall of any building, shall be of the description known as the extra heavy pipe. All pipe shall be of uniform thickness, free from all defects, and shall have an average weight per linear foot not less than below specified, viz. :

							Ordinary pipe.	Extra heavy.
Internal diameter, 2 inches	3½ lbs.	5½ lbs.
“ “ 3 “	4½ “	9½ “
“ “ 4 “	6½ “	13 “
“ “ 5 “	8 “	17 “
“ “ 6 “	10 “	20 “
“ “ 8 “		33½ “
“ “ 10 “		45 “

SECT. 16. All lead pipe used for waste or vent lines shall be of uniform thickness, free from defects, and shall have an average weight per linear foot not less than below specified, viz. :

Internal diameter 1¼ inch pipe	3 pounds.
“ “ 1½ “ “	3 lbs. 8 oz.
“ “ 1¾ “ “	5 pounds.
“ “ 2 “ “	6 “

SECT. 17. Four inch lead pipe or bends used in connecting water-closets shall weigh not less than eight pounds to the foot. Weight of lead traps shall be as below specified, viz. :

4 inch round traps, not lighter than 6 pounds	.	4 inch pipe.
5 “ “ “ “ “ “ 8 “	.	5 “ “
1½ “ “ “ “ “ “ 3 “	.	1½ “ “
1¼ “ “ “ “ “ “ 2½ “	.	1¼ “ “

All sleeves used in connecting lead waste and vent pipe to cast-iron pipe shall be of the kind known to the trade as “extra heavy” brass.

SECT. 18. Joints in cast-iron pipes shall be packed with oakum run with molten lead, thoroughly calked and made tight. No joint shall be covered with paint until after the inspection and approval required by these regulations. Joints in lead pipes shall, when practicable, be of wiped solder. Connections of lead to cast-iron pipes shall be made with brass fernules calked to the iron and connected to the lead by wiped solder, or some equivalent device satisfactory to the sanitary officer. All connections of lead to brass shall be of wiped or overcast solder. Joints in earthen pipes shall be made water-tight by means of the best hydraulic cement with which the joints shall be thoroughly filled, and care must be taken that all mortar which comes through into the inside of the pipe is wiped out.

SECT. 19. Waste pipes from safes, refrigerators, and overflows of tanks or cisterns shall empty over sinks, trapped gully-holes, or otherwise as may be approved, but shall not connect with the drainage system, or be allowed to drip on cellar bottoms.

SECT. 20. No steam exhaust, blow-off from a boiler or heating apparatus, shall connect with a sewer, house drain, or any part of the drainage system of the building. Such pipes shall discharge into a suitable tank or condenser, from which a trapped outlet to the house drain may be provided.

SECT. 21. No saddle hub will be allowed on any plumbing.

SECT. 22. The contractor or plumber having charge of the construction, reconstruction or any portion of the drainage system of any building shall, when the work is completed or sufficiently advanced for inspection, notify, in writing, the sanitary officer, who shall proceed to pass upon the work at once, or not later than twenty-four hours of secular time after such notification.

SECT. 23. No part of any drainage system shall be covered up or hidden from view till approved by the sanitary officer.

SECT. 24. All plumbing shall be tested by water pressure test by the plumber in the presence of the sanitary officer.

SECT. 25. The board shall promptly condemn and order removal of any work not done in accordance with these regulations, and when it finds any piece of work properly done and in full compliance with these regulations, it shall issue its certificate to that effect.

SECT. 26. Bad faith in the performance of work under a permit shall be deemed a sufficient reason for subjecting the plumber so offending to a suspension of his license, and every plumber shall be held responsible for the violation of these regulations by mechanics, laborers, and helpers employed by him.

SECT. 27. No permit shall be issued to any licensed plumber during the time that he shall fail to agree to remedy any defective work after the sending of a written notice that he has been held responsible therefor under these regulations.

SECT. 28. Under no circumstances whatever shall verbal permission given by any one whether connected with the government of the city or not, be considered a justification for any deviation from, or violation of, these regulations.

SECT. 29. This ordinance applies only to new work and all modifications, replacements, and extensions of existing work ;

but shall not debar the sanitary officer from making inspections of any plumbing, and of enforcing Sec. 3, Ch. 14, City Ordinance, relating to public health.

SECT. 30. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed.

SECT. 31. This ordinance shall be in force upon its passage.

Passed July 10, 1900.

AN ORDINANCE PROVIDING FOR THE LOAN OF THREE THOUSAND DOLLARS FOR AN EXTENSION OF SEWERS IN THE PENACOOK SEWERAGE PRECINCT.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That the treasurer of said city is hereby authorized to procure by loan on the credit of the city the sum of three thousand dollars for the purpose of defraying the cost of an extension to the sewerage system of the Penacook sewerage precinct.

SECT. 2. Bonds of said city shall be issued for said loan, signed by the mayor and city treasurer and countersigned by the city clerk, and shall in all respects comply with the provisions of the municipal bond act of 1895.

Said bonds shall be numbered from 53 to 58 inclusive, and shall be for the sum of five hundred dollars (\$500.00) each. Said bonds shall be dated October 15, 1900. Bond numbered 53 shall be due and payable on the first day of October, 1905. Bond numbered 54 shall be due and payable on the first day of October, 1910. Bond numbered 55 shall be due and payable on the first day of October, 1915. Bond numbered 56 shall be due and payable on the first day of October, 1916. Bond numbered 57 shall be due and payable on the first day of October, 1917. Bond numbered 58 shall be due and payable on the first day of October, 1918. Said bonds shall have coupons attached for the semi-annual interest thereon, payable on the first days of October and April in each year during the time the bonds run at a rate of interest not exceeding $3\frac{1}{2}$ per cent. per annum. Said bonds shall be exempt from taxation when owned by residents of Concord.

SECT. 3. All money paid on account of said bonds, whether as principal or interest, shall be charged to said Penacook sewerage precinct.

A sum sufficient to pay the interest accruing on said bonds shall be raised by an annual tax on the property, and polls of said Penacook sewerage precinct, as authorized by law. The sum of one hundred dollars (\$100.00) per year for the term of fifteen years from October 1, 1900, and the sum of five hundred dollars (\$500.00) per year for the term of three years from October 1, 1915, shall be raised by a tax on the property and and polls of said Penacook sewerage precinct for the purpose of creating a sinking fund to pay said bonds as they mature. Said sinking fund as soon as paid over to said city from year to year shall be invested by the finance committee of said city subject to approval of board of mayor and aldermen. Said sinking fund shall be applied to the payment of said bonds as they mature.

SECT. 4. The treasurer is hereby authorized to notify proposals for the sale of the bonds hereby authorized, and such bids as seem for the best interests of the city shall be accepted by him, provided the same are approved by the finance committee.

SECT. 5. This ordinance shall take effect upon its passage.
Passed August 14, 1900.

AN ORDINANCE PROVIDING FOR THE REFUNDING OF TWENTY-FIVE THOUSAND DOLLARS OF WATER PRECINCT BONDS.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. That the treasurer of said city is hereby authorized to procure by loan, on the credit of the city, the sum of twenty-five thousand dollars for the payment of fifteen thousand dollars of Water Precinct Bonds maturing November 1, 1900, and ten thousand dollars of Water Precinct Bonds maturing January 1, 1901.

SECT. 2. Bonds of said city shall be issued for said loan, signed by the mayor and countersigned by the city clerk, as provided in the ordinance relating to loans and shall in all respects comply with the provisions of the Municipal Bonds Act of 1895. Said bonds shall be dated November 1, 1900, and shall be numbered consecutively from 216 to 240 inclusive, and shall be for the sum of one thousand dollars each. Five of said bonds in their order as numbered, commencing No. 216, shall become due and payable on the first day of January, 1910 ; five of said

bonds in their order as numbered, commencing with No. 221, shall become due and payable on the first day of January, 1911; ten of said bonds in their order as numbered, commencing with No. 226, shall become due and payable on the first day of November, 1920; five of said bonds in their order as numbered, commencing with No. 236, shall become due and payable on the first day of November, 1921. Said bonds shall be payable to the bearer with interest at a rate not exceeding three and one half per cent. per annum, payable semi-annually on the first days of May and November in each year upon the presentation of the coupons attached to said bonds respectively.

SECT. 3. The treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized, and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the finance committee.

SECT. 4. That all of said bonds owned by citizens of said city of Concord shall be exempt from taxation, as provided in Chapter 55, Section 14, of the Public Statutes.

SECT. 5. This ordinance shall take effect upon its passage.

Passed Sept. 11, 1900.

AN ORDINANCE IN AMENDMENT OF CHAPTER 21 OF THE REVISED ORDINANCES EXTENDING THE SPRINKLING PRECINCT.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. Said precinct shall include, in addition to the territory described in said Chapter 21, the following territory : That portion of Warren street beginning at its junction with High and Liberty streets, thence extending westerly to its junction with Pleasant street ; also that portion of Pleasant street beginning at its junction with Warren street, thence extending westerly to its westerly terminus at the Fisk Road ; also that portion of the Dunbarton road, so called, beginning at the easterly end thereof at its junction with Pleasant street, thence extending westerly to the iron bridge across Turkey river ; also that portion of the Hopkinton road, so called, beginning at the easterly end thereof at its junction with the Dunbarton road, so called, thence extending northwesterly about 400 feet to and including the Flanders house, so called.

SECT. 2. Said additional territory embraced within the bound-

aries described in Section 1 of this ordinance shall include all lands abutting on said streets and roads within said boundaries.

SECT. 3. This ordinance shall take effect and be in force upon its passage.

Passed Dec. 11, 1900.

AN ORDINANCE RELATING TO THE REMOVAL OF GARBAGE.

Be it ordained by the City Council of the City of Concord, as follows :

SECTION 1. No person shall remove, or carry in, or through, any of the streets, squares, courts, lanes, avenues, or alleys within the city of Concord any swill or house offal, animal or vegetable, grease or bones, or any refuse substance from any dwelling houses, or other places in the city, unless such person so removing, or carrying the same, shall have been expressly licensed by the board of health, annually.

SECT. 2. No person shall transport fat, bones, or decayed, putrified, or vile smelling animal or vegetable substances within the city limits, except in water-tight, securely-covered vessels from which no odor can escape.

SECT. 3. Any person violating any of the provisions of the two preceding sections shall be fined the sum of ten dollars for every violation thereof.

SECT. 4. This ordinance shall take effect Feb. 1st, 1901.

Passed Dec. 11, 1900.

RESOLUTIONS.

A JOINT RESOLUTION AUTHORIZING THE MAKING AND PRINTING
OF A NEW INDEX FOR THE PUBLISHED TOWN RECORDS OF THE
CITY OF CONCORD.

Resolved by the City Council of the City of Concord, as follows:

That the special joint committee consisting of Alderman Willis and Councilman Colby who were appointed to consider the matter of a new index for the published Town Records of the City of Concord, be given authority to have a new and complete index made and published in suitable form ; that three hundred copies be printed ; that a sum not exceeding two hundred and fifty dollars (\$250.00) be appropriated out of any money in the treasury not otherwise appropriated to cover the expense of the same ; that the actual expenses of publishing the same be charged therefor to all persons except one copy each to the Concord Public Library, the State Library, St. Paul's School, and ten copies to the N. H. Historical Society, which shall be donated free.

Passed January 9, 1900.

\$1,555.92

SECT. 2. That there is transferred to the appropriation for the highway department for the year 1899, the sum of \$1,208.95, the earnings of said department, which sum shall be credited to the appropriation for said year. And the sum of \$1,205.12 be and hereby is appropriated out of any money in the treasury

not otherwise appropriated, to pay outstanding claims against said department for the year 1899.

Passed February 27, 1900.

A JOINT RESOLUTION AUTHORIZING THE TRANSFER OF FUNDS.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer be, and hereby is, authorized to transfer the sum of five hundred dollars (\$500) from the Penacook Sewerage Precinct sinking fund account to the city treasury, said sum having been appropriated out of the accumulated earnings of said fund to constitute a part of the amount to be raised for the sinking fund for 1899, which together with five hundred dollars (\$500) raised by taxation amounts to one thousand dollars (\$1,000), the sum required by ordinance.

Passed February 27, 1900.

A JOINT RESOLUTION REFUNDING TAXES.

Resolved by the City Council of the City of Concord, as follows:

That the sum of \$17.21 be refunded to James R. Hosking, the same being amount illegally paid for taxes in the years 1894-'95-'96-'97-'98, and that the same be charged to the appropriation for incidentals.

Passed February 27, 1900.

A JOINT RESOLUTION AUTHORIZING A LOAN OF SEVENTY-FIVE THOUSAND DOLLARS.

Resolved by the City Council of the City of Concord, as follows:

SECTION 1. That the city treasurer, under the direction of the committee on finance, is hereby authorized and empowered to borrow temporarily on the credit of the city seventy-five thousand dollars (\$75,000), in anticipation of the taxes for the present municipal year, and to issue the notes of the city therefor, for such part thereof as may from time to time be borrowed, said notes to be paid from the taxes for the present municipal year.

SECT. 2. And the city treasurer is hereby instructed to invite offers at what rate of interest money will be loaned to the city,

said proposals to be reported to the joint committee on finance, who shall accept the lowest responsible bid.

Passed April 10, 1900.

A JOINT RESOLUTION AUTHORIZING THE BUILDING OF A POLICE STATION IN WARD ONE.

Resolved by the City Council of the City of Concord, as follows:

SECTION 1. That the sum of four thousand dollars or so much thereof as may be necessary, is hereby appropriated for the purpose of building a police station in Ward One, the same to be charged to account of incidentals and land damage.

That Aldermen Harry G. Rolfe, Ebenezer B. Hutchinson, and Councilman William Taylor, be, and hereby are, constituted a committee to have full charge of the erection and construction of said police station with full power to make all necessary contracts in relation thereto.

SECT. 2. That this committee are hereby instructed to publicly advertise for sealed proposals for erecting the same, and they shall let the contract to the lowest responsible bidder.

Passed April 10, 1900.

A JOINT RESOLUTION DISCONTINUING A PORTION OF CHANDLER STREET.

Resolved by the City Council of the City of Concord, as follows:

That the following tracts of land which are portions of Chandler street, as laid out by the selectmen in April, 1833, be, and are hereby, discontinued: A tract of land on the southerly side of Chandler street as follows: Commencing at a point on the easterly line of South Main street, as occupied, about 3.25 feet southerly of the southerly line of Chandler street as now laid out; thence running southerly on the easterly line of said South Main street about 30 feet to land of Kate G. and Mary A. Lee; thence northeasterly 99 feet to a point about 3.25 feet southerly from the southerly line of said Chandler street; thence westerly parallel to and about 3.25 feet southerly of said south line of Chandler street to South Main street at the point begun at. Also another strip of land about 3.25 feet wide extending from South Main street to the easterly line of Railroad street and

lying next south of the southerly line of Chandler street as now laid out. Also another piece of land on the northerly side of Chandler street as now laid out : Commencing at the northerly line of Chandler street at its intersection with South Main street ; thence running northerly about 34 feet ; thence southeasterly about 53.5 feet to the northerly line of Chandler street ; thence westerly about 35.5 feet to the point of beginning. Meaning hereby to discontinue all lands lying northerly and southerly of Chandler street as now laid out, which were originally included in said highway.

Passed May 8, 1900.

GENERAL APPROPRIATION.

Resolved by the City Council of the City of Concord, as follows:

That the auditor be, and hereby is, authorized to transfer from the excess of any item in any general appropriation to make up any insufficiencies in any item or items in the same general appropriation.

This resolution to be in force during the present financial year.

Passed December 11, 1900.

A JOINT RESOLUTION APPROPRIATING \$717.84 TO PAY FOR THE
UNREDEEMED REAL ESTATE SOLD TO THE CITY OF CONCORD FOR
THE YEAR 1899.

Resolved by the City Council of the City of Concord, as follows:

That the sum of \$717.84 be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated to pay for the taxes of ——— 1899 ——— on real estate sold for taxes unpaid, and bid in by the city of Concord. And the said appropriation shall be credited to the account of incidentals and land damage.

Passed December 11, 1900.

A JOINT RESOLUTION EXEMPTING CERTAIN PROPERTY FROM TAXATION.

Resolved by the City Council of the City of Concord, as follows:

A resolution in amendment of a resolution exempting from taxation certain property of Wilkins, Foster & Clough, passed May 14, 1895, and in amendment of a resolution extending said exemption to the New Hampshire Fruit Company, passed December 10, 1895, and in amendment of a resolution extending said exemption to the Haynes-Piper Company, passed December 14, 1899.

WHEREAS, certain property of Wilkins, Foster & Clough was exempted from taxation by a resolution passed May 14, 1895, and

WHEREAS, that exemption was extended to the New Hampshire Fruit Company for the remaining portion of said ten years from the passage of said original exemption by a resolution passed December 10, 1895, and

WHEREAS, said exemption was extended to the Haynes-Piper Company for the remaining portion of said ten years from the passage of original act by a resolution passed December 14, 1899, and

WHEREAS, the said Haynes-Piper Company has conveyed said property exempted to Wilkins, Foster & Clough, to the John W. Dickinson Company which in turn has agreed to convey the same to the Victor Manufacturing Company, which has entered into a contract for the purchase thereof from said John W. Dickinson Company, and proposes to carry on the business of manufacturing plumbers' supplies upon and in connection with the premises so exempted by said resolution of May 14, 1895, and December 10, 1895, and December 14, 1899.

Now, THEREFORE, be it resolved by the City Council of the City of Concord, as follows:

SECTION 1. That the exemption from taxation extended to Wilkins, Foster & Clough for the period of ten years by virtue of said resolution of May 14, 1895, and of the said New Hampshire Fruit Company for the unexpired portion of said ten years by said resolution of December 10, 1895, and to the said Haynes-Piper Company for the unexpired portion of said ten years by a resolution of December 14, 1899.

BE, and the same is, hereby extended to said Victor Mann-

Engineering department	\$31.55
Fire department	1,204.34
History commission	125.00
Printing and stationery	92.03
Salaries	239.49

SECT. 3. That there is transferred to the appropriation for interest the sum of \$389.34, interest received on the city deposit for the year 1900, which sum shall be credited to the appropriation for interest for said year.

And the sum of \$194.13 be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated to pay outstanding claims for interest for the year 1900.

SECT. 4. That there is transferred to the appropriation for incidentals and land damage the sum of \$415 received from the state of New Hampshire to reimburse the city for bounties paid on grasshoppers, which sum shall be credited to said appropriation for said year.

And the sum of \$130.04 be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated to pay outstanding claims against said appropriation for the year 1900.

Passed January 8, 1901.

A JOINT RESOLUTION AUTHORIZING THE BORROWING OF THE SUM OF \$586.09, FOR THE USE OF THE STREET SPRINKLING PRECINCT FOR THE YEAR 1900.

Resolved by the City Council of the City of Concord, as follows:

That the city treasurer is hereby authorized to borrow on the credit of the city the sum of \$586.09, for use in payment of bills against the street sprinkling precinct for the year 1900.

Passed January 8, 1901.

A JOINT RESOLUTION RELATIVE TO SALARIES OF JAMES KELLEY AND JOHN G. PUTNAM, POLICE OFFICERS.

Resolved by the City Council of the City of Concord, as follows:

That James Kelley be paid his full salary for the month of December, 1900, and that John G. Putnam be paid one-half salary for the time he was off duty, by season of sickness. Said police officers being obliged to be on duty extra time, for which they receive no compensation.

Passed January 8, 1901.

TREASURY DEPARTMENT.

ANNUAL REPORT

FOR THE YEAR 1900.

To His Honor the Mayor and the City Council:

I herewith submit the annual report of the condition and transactions of the Treasury Department, consisting of a statement of the bonded and bills payable indebtedness of the city and water precinct, with coupon statements of each, and statement of income and payments of the Water-Works Department, a list of the trust and sinking funds of the city, including an account of the securities in which said trust and sinking funds are invested; also, a statement of receipts of Blossom Hill and Old Cemetery; a statement of the income of trust funds paid the treasurers of suburban cemetery associations; and in addition to the foregoing, a general statement of the receipts and expenditures for the year.

Respectfully submitted,

ALVIN B. CROSS,

City Treasurer.

	<u>\$77,509.05</u>

The city treasurer had in his possession January 1, 1901, as treasurer and custodian, the following trust and sinking funds, viz.:

ABIAL WALKER TRUST.

For the benefit of the School Fund.

Capital	\$1,000.00
Income received, 1900	35.00
Paid into the city treasury	35.00

Invested in Merrimack County Savings Bank.

COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital	\$2,000.00
Income received, 1900	100.00
Paid Fannie E. Minot, treasurer of the society	100.00

Invested in Eagle and Phenix Hotel Company 5 % notes, secured by mortgage.

MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the Superintendent of Cemeteries for the preservation, care, and embellishment of the burial lots known as the Minot Enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital	\$3,000.00
Income received, 1900	105.00
Paid H. H. Dudley, treasurer	105.00
Invested in City of Concord $3\frac{1}{2}$ % note	2,000.00
Merrimack County Savings Bank	1,000.00

DAVID OSGOOD TRUST.

Capital	\$200.00
Balance from last year	\$152.05
Income received, 1900	11.50
	<hr/>
	\$163.55

Capital, \$200, invested in City of Concord 4% bond, and \$100 of income invested in City of Concord 3½% bond.

The purpose of the donor of this trust fund was that the income should be used for the purchase of school books for poor children, but since the bequest was made, a state law has been enacted that requires the towns and cities to buy all the school books, consequently the beneficiary of the donor is provided for and for the purpose of the trust no longer exists. This fund, \$200, and accumulations amount to \$363.55, and same will continue to accumulate forever without any benefit to any object unless some legal action can be taken to divert the income from the specified purpose of the donor.

COGSWELL COLLECTION OF THE PUBLIC LIBRARY.

Bequest of P. B. Cogswell, the income to be spent annually for the purchase of books of a Biographical, Geographical, Historical, and Scientific character, and the books relating to science shall be those that give the latest developments and discoveries by scientific persons, from year to year.

Capital	\$2,145.00
Income received, 1900	72.35
Paid into the city treasury	72.35
Invested in City of Concord 3½% note	2,000.00
Invested in Loan and Trust Savings Bank	145.00

G. PARKER LYON PUBLIC LIBRARY TRUST.

Capital	\$1,000.00
Income received, 1900	35.00
Paid into the city treasury	35.00
Invested in City of Concord 3½% bond.	

FRANKLIN PIERCE PUBLIC LIBRARY TRUST.

Capital	\$1,000.00
Income received, 1900	36.25
Paid into the city treasury	36.25
Invested in City of Concord 4% bond	500.00
Invested in Union Guaranty Savings Bank	500.00

THOMAS G. VALPEY PUBLIC LIBRARY TRUST.

Capital	\$500.00
Income received, 1900	17.50
Paid into the city treasury	17.50

Invested in City of Concord $3\frac{1}{2}\%$ bond.

BLOSSOM HILL CEMETERY FUND.

This fund is increased each year by the addition of one half the amount received from the sale of lots. The income of the fund is used for the care, protection, and ornamentation of Blossom Hill Cemetery.

Amount of capital, January 1, 1900 .	\$17,608.04
Received from one half sale of lots, 1900	620.45
Received from income of fund, 1900 .	679.25
	————— \$18,907.74

Paid J. M. CROSSMAN, treasurer of West Concord cemetery, \$4.50 for care of lot provided for by the following cemetery trust fund:

Jas. Bradford	\$4.50
-------------------------	--------

I hereby certify that I have examined the foregoing accounts of Alvin B. Cross, City Treasurer, for the year 1900, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and the cash balance in the hands of the city treasurer to be eleven thousand and eighty dollars and forty-two cents (\$11,080.42), and as treasurer of the City Water Department to be nine thousand, five hundred and forty-eight dollars and nine cents (\$9,548.09).

I have also verified the account of the trust and sinking funds of the city, and find such trust and sinking funds invested and the income thereof, for the year 1900, accounted for, as shown by the book of the city treasurer, kept for that purpose.

CONCORD, N. H.,
FOR YEAR ENDING MARCH 31, 1901.

The schools in Union District still present their high order of excellence, and maintain in every respect that measure of constant usefulness and improvement which is and always has been the one desire of our people. The past year, save in certain intervals of sickness, has but repeated the experience of its immediate predecessors. For details at once interesting and instructive, reference should be had to the full and comprehensive report of Mr. Rundlett, the superintendent of schools. Following the annual meeting of 1900, the Board organized by choosing Charles R. Corning as president and Susan J. Woodward as secretary. It was considered desirable to change the form and duties of certain committees in order more fully to distribute work and to confine responsibility. Therefore, instead of arranging committees assigned to grades as had theretofore been the practice, the committees were assigned to school buildings. By this method the Board has found its knowledge and appreciation of school requirements and necessities largely augmented and at the same time more systematically distributed.

Aside from the several graduating exercises held at the close of the school year in June, occurrences that never fail to attract large and delighted audiences, the striking school event during the year was the dedication and opening of Dewey School on the 31st of January, 1901. It is evident to the members of this Board that the building of that house has been the suggestion for building other commodious

houses at no distant day. In fact it was deemed best, even now, that an article be inserted in the warrant calling upon the voters to express their opinions relative to a building to replace the Rumford school house.

The reasons prompting such action did not arise wholly from the growth of population in the south section of our city and the consequent crowding of certain rooms ; it was more strongly urged by circumstances pertaining to health and sanitation. By vote of the Board the Concord Board of Health was requested to make an examination of our buildings and suggest such improvements as were found necessary. Accordingly the following communication was duly received :

OFFICE OF THE CITY OF CONCORD BOARD OF HEALTH.

CONCORD, N. H., March 7, 1901.

To the Board of Education, Union School District, Concord, N. H. :

In compliance with your request of October 26, 1900, that a sanitary inspection be made of the school buildings of the city, I would respectfully submit the following report :

I find the High, Franklin, Cogswell, Chandler, Tahanto, and West Concord school buildings to be in good condition.

At the Penacook, Rumford, Walker, and Merrimack schools I would recommend that the latrines be taken out of the boys' and girls' apartments and the standard automatic latrines be substituted with suitable ventilation, similar to the system recently installed in the Chandler school, and that new automatic urinals be placed in the Rumford, Walker, and Merrimack buildings.

The Kimball school system is well ventilated but the latrines should be changed to the standard automatic flush.

As far as I am able to judge, it seems that from \$1,800 to \$2,000 should cover the cost of these changes, although I do not know the condition of the sewer under the floors which might make a slight addition in the expense.

Respectfully,

CHARLES E. PALMER,
Health Officer.

The Board of Education desire at this time to say to the people of the district that the recommendations and suggestions offered by the Board of Health are most welcome, and so far as the Board of Education can do so, will be cheerfully and promptly carried out. To a certain extent the above letter includes an outlay on the Rumford building. But beyond that communication is the exhaustive expert

report of Prof. S. H. Woodbridge, one of the most intelligent, highly esteemed, and experienced scientific men in the United States.

The whole matter of modern and perfected ventilation of school rooms is an exceedingly difficult and perplexing one. Great attention has been given to this matter by Dr. S. C. Morrill, who has made numerous experiments and examinations into the varying conditions of our schools. So important did the whole question become that in August last a special meeting of the district was called. Among other votes discussed was this vote :

VOTE AT A SPECIAL MEETING HELD AUGUST 2, 1900.

“ Mr. John P. George offered the following as a substitute for Mr. Sawyer's motion :

“ *Voted*, that the Board of Education be and hereby are authorized to investigate, by the aid of experts if necessary, the condition of the schoolhouses of the district with respect to ventilation, lighting, and heating, and report to the next annual meeting of the district, the result of such investigation and recommend such changes or improvements, if any, as may be found necessary and practicable, with the estimated cost of such changes or improvements ; thereby enabling the district to intelligently consider the subject, and if changes or improvements are found necessary, that the district may appropriate the necessary amount therefor.”

A few weeks subsequent to that meeting, after consultation with Dr. Irving A. Watson, chairman of the State Board of Health, and himself a distinguished and learned man in his profession, the board asked Professor Woodbridge of Boston to come to Concord. He came, met several members of the Board and in company with them visited one or more buildings.

His conclusion was that in order to make such an examination as the sense of the special meeting called for, it would be necessary for him to visit the buildings in mid-winter when the conditions in respect to heating, ventilation, and lighting should present themselves in their most inadequate, offensive, and injurious forms. Accordingly, on Tuesday, the 29th of January, Professor Woodbridge accompanied by an assistant, arrived here and began his work of thorough examination into the conditions of our schools. He continued his work for several days applying to his examination all the approved and accepted tests of science.

The correspondence and conclusions of Professor Woodbridge are here set forth :

S. HOMER WOODBRIDGE COMPANY,
HEATING, VENTILATING, AND SANITARY ENGINEERING.
93 FEDERAL ST.

BOSTON, Feb. 12, 1901.

MR. L. J. RUNDLETT,

Superintendent of Schools, Concord, N. H.

MY DEAR SIR: In reviewing the results of the tests made for determining the working of the heating and ventilating systems in the schoolhouses of your city, it appears that in some cases the present system is of ample capacity, and in need of some adjustment only, while other systems are so inadequate as to make advisable a complete change in the means and methods of doing the work. Included in the latter class are, apparently, the *Chandler, Rumford, Tahanto, and Penacook* school buildings. Of these buildings I should like to have floor plans showing the basement and each floor, and about everything pertaining to the floor arrangements and features of the building construction. If the building or architect's plans are wanting, all that is needed may be drawn up from measurements of the premises.

A preliminary report giving data obtained by the investigation will be shortly made out and forwarded to Concord. Should it be sent to you, or to the chairman of the school committee?

Very truly yours,

S. Homer Woodbridge Company,
S. H. WOODBRIDGE.

Plans in accordance with his request were immediately prepared by W. B. Howe, city engineer, and promptly sent to Professor Woodbridge. On the 22d of March Professor Woodbridge submitted his preliminary report, setting forth the conditions, suggested changes, and the estimated cost involved in his recommendations as to the *Chandler, Rumford, Penacook, Tahanto, Merrimack, Walker, Kimball, Franklin, and Cogswell* buildings.

His estimates are these :

Chandler—\$600 to \$800.

Rumford—\$1,500 to \$1,800.

Penacook—\$600 to \$800.

Tahanto—\$550 to \$700.

Merrimack—\$200 to \$225.

Walker—\$160 to \$260.

Kimball—\$350 to \$400.

Franklin—Conditions require slight modifications.

Cogswell—\$60.

The minimum estimates are \$3,960; the maximum, \$5,045.

The debt of the district is a bonded one of \$30,000 for the High and Kimball schools, half of which will be paid this year, and an unfunded debt of \$24,000 for Dewey school. Were the district out of debt the Board of Education would have no hesitation in emphatically recommending an appropriation sufficient to build a new Rumford schoolhouse, such a house as should be commodious, attractive, and worthy a progressive people.

The advisability, however, of expending on that building a considerable sum of money in carrying out the changes involved in the suggestions of the Board of Health and of Professor Woodbridge is by no means clear to the Board of Education. As the erection of a new building on the Rumford site cannot be much longer delayed, the question of laying out several thousand dollars on a building likely to disappear in a few years becomes one purely of business prudence and feasibility.

Aside from the Rumford building the whole subject embraced in Professor Woodbridge's report calls for wise and careful consideration. Assuming that the changes in ventilation will not exceed the estimate, and that the changes in closets can be made within the sum stated by Health Officer Palmer, the total amount called for is about \$7,000. No doubt that these alterations ought to be made, but whether to make them all at this time or to make them gradually is for the district to decide. The Board of Education does not deem it advisable to ask for the whole sum estimated at this time, but prefers to take one or two buildings each year until the work is completed.

At the expiration of three or four years all these recommended changes would be completed and by that time the existing debt of the district would be nearly paid, thus presenting an occasion singularly favorable for entering upon the construction of a large and modern house to replace the Rumford.

CHARLES R. CORNING,
President.

JOHN C. ORDWAY,
HENRY C. BROWN,

EDWARD N. PEARSON,
Board of Education.

REPORT OF THE BUILDING COMMITTEE OF DEWEY SCHOOL.

At a meeting of Union School District, held June 27, 1898, an appropriation of \$35,000 was voted for the purchase of a lot and the erection of a new school building at the West End, and a committee was chosen to carry the vote into effect.

At a subsequent meeting, held on the 13th of October following, the former vote was amended and the committee instructed to purchase the west half of the city lot, so called, and erect a new school building thereon, constructed of Concord brick, with Concord granite trimmings, and employ therefor Concord architects, builders, mechanics, and laborers.

The committee, in the discharge of their duties, at once began looking for new buildings containing the latest and most approved features of recent school architecture, which might, at least to some extent, be incorporated in the proposed new structure. Many of the later erected buildings in the vicinity of Boston, and in several towns and cities in our own state, were visited, but it proved to be a difficult matter to find school buildings anywhere superior to, or hardly the equal of, in many respects, those recently built in our own city; and Concord is certainly to be congratulated that its school buildings, as a whole, are better than those of other cities of corresponding size of which the committee have knowledge, and fully the equal of those in larger and more wealthy communities.

The lot, purchased November, 1898, was found to be an extremely difficult and expensive one to grade. Nearly four thousand cubic yards of excessively stubborn earth and rock were removed at an expense of nearly \$2,500, and consuming so nearly the whole of the summer of 1899 that it was thought best to defer the beginning of the erection of the new building until the spring following.

Mr. J. E. Randlett, architect, of this city, accompanied the committee, or some of its members, to several of the places visited, and fully acquainted himself with the latest and most approved methods of construction and interior arrangement of modern school buildings, and it is but just to him to say that his efforts to satisfy the committee were continuous and unrelenting. Several plans were made, all of them

good, and that which was finally adopted is found in the structure in which we are assembled to-day.

In construction the committee pursued a broad and liberal policy, always endeavoring to keep the cost at the minimum, but never seeking to sacrifice stability or efficiency for economy. The batters for the new building were put up the 6th of April; the excavations and foundations were commenced on the 12th of the same month, and the brick laying began on the 4th of June, and in a little less than ten months the structure has been completed. The unusually dry season was a most favorable one for the purpose.

The building contains four large school-rooms, and two smaller ones for recitations, physical or industrial training, or general school purposes; all easily accessible by short flights of stairs, easy of ascent; the corridors are unusually commodious and convenient; the basements, light, sunny, and cheerful for playrooms in stormy weather, and the building as a whole embodies in every part the latest and most approved plans for comfort and sanitation. We trust it may meet with general approval. The principal contract for the building was awarded to J. L. A. Chellis of this city, and the warming and ventilating apparatus was supplied by the Fuller Warren Company of Boston. The foundation walls were laid by John Lugg; the cut stone was furnished by Thomas Fox; the brick work was done by Rowell & Plummer; the slating, by W. E. Darrah; the plumbing, by M. E. Clifford; the speaking tubes and electric bells, by C. W. Dadmun; the painting, by Fred Rollins, and the furniture was supplied by the J. M. Stewart & Sons Company—all of this city, and it is a pleasure to say that we believe the material furnished has been the best of its kind and the labor faithfully and skilfully performed.

On the 11th of June the school board unanimously voted that the new building should be named the Dewey School, in honor of the Rev. Harry P. Dewey, D. D., for nine years—1890-1899—a member of the Board of Education; a most felicitous selection, a name well worthy to be perpetuated on a building of this character, and we believe the building to be worthy of the name.

The treasurer's report of the cost of the building will be submitted later. The grading has not been completed, and the concrete walks have not been laid, but it may be safely assumed that the cost of the building and furniture has been kept within the appropriation, and no further sum is likely to be needed.

To you, Mr. President, and the Board of Education, who are to be the custodians of this building, we now present the keys, with the

fervent wish that, for at least a full half century, it may well subserve the high purpose for which it is intended, and that this school, and all our schools, may graduate only good citizens and pure and noble women, whose elevating influence shall ever serve to shape and adorn the character of this pleasant city which we call our home, and thus perpetuate a goodly heritage for those who come after us.

Respectfully submitted,

JOHN C. ORDWAY,

WILLIAM F. THAYER,

WILLIS D. THOMPSON,

ATTENDANCE AND SCHOOL ACCOMMODATIONS.

The table of attendance for the year ending June 23, 1900, shows a slight decrease in the whole number of different pupils enrolled. The actual number to date, however, exceeds that of the corresponding period of last year. This increase is evenly divided by the different sections of the district. If the proposed Concord, Dover & Rochester electric road be built it should in time increase the attendance at the Plains, and more room will be required there.

The Dewey school opened February 5, and now has an enrollment of 153 pupils representing the first five grades. The lines of attendance for this building are as follows: Beginning at Pleasant street, all of Pine, the north side of Washington, to Rumford, the west side of Rumford to Blanchard, all of Blanchard, Essex, Rowell, and White to Beacon, around Beacon and Charles to the junction of High and Franklin, the south side of Franklin to Auburn, and all the territory west of these lines. All the rooms are now in use. The afternoon sub-primary class, numbering thirty, was at first assigned to one of the small front rooms, but the accommodations offered not being adequate the class was transferred to the unoccupied room on the second floor. The pupils came from the Bow Brook, Kimball, Franklin, and Merri-mack buildings. The Bow Brook building is now vacant. It might be moved farther west, fitted up with modern conveniences, and used with profit. The attendance at the south end steadily increases, and the capacity of the rooms is tested. The building of the Dewey school had little effect in relieving the Walker building which now has an average of forty-seven pupils to a room. The Penacook building has an average of fifty-one, the Rumford forty-eight, and the Cogswell forty-eight.

The success of a school system depends upon the conditions under which it is in operation. In addition to competent teachers and all the apparatus necessary for the proper instruction of the pupils, there must be sufficient room to prevent overcrowding, plenty of heat, light, and fresh air. It has been suggested that the Rumford building be changed so as

to conform to the requirements of sanitary laws. The advisability of placing new and costly apparatus in an old unsuitable building is a debatable question. I believe the interests of the public would be better subserved by the erection of an eight-room building on the Rumford lot, on account of the growing population and need of additional room both for regular school purposes and for the sewing classes.

The construction of school buildings as far as the arrangement of rooms and general accommodations are concerned should be determined by those who are conversant with the every-day requirements of the schools. To build a new building that, upon its construction, presents inadequacy in the matter of room accommodation and facilities for the requirements of the modern school, results in no end of inconvenience and certainly in a pecuniary loss. One advantage of an eight-room building is its capacity for exemplifying the entire grade work from the kindergarten to the high school. This of itself would be a sufficient argument for its construction. I also believe what I have stated in former reports, that a building should furnish rooms enough to provide for future contingencies—not merely for the present. The high school to-day is not large enough. Since the third year of its construction there have been from ten to thirty platform desks crowded into the main hall. This school is sure to increase. If the grammar schools were not doing much of the work done by the ordinary high school, the question of enlarging the building would have been considered ere this. I am unaware of any state law which regulates the number of pupils allowed to attend a school. Several states have adopted stringent laws prescribing the conditions under which school buildings may be constructed. These are made from a hygienic point of view and seek to furnish pupils protection against contracting disease from unhealthful sanitary conditions. The death-rate among school children in America is larger than that in Europe—a fact which has been ascribed in no small degree to the bad ventilation of school buildings. To render laws already in force more effective, others will be enacted to prevent the overcrowding of rooms. Each pupil should be furnished with 2,000 cubic feet of pure air per hour.

Under this rule the average school-room in Concord would accommodate but forty pupils, and nearly all of our rooms have an enrollment of from eight to ten more than this number. In some rooms there have been sixty. This means a reduction of the standard to 1,422 cubic feet. No air is too pure for pupils closely applied to study. Experts declare that anything below 2,000 cubic feet is harmful and ought not to be allowed. I believe that nothing short of the most favorable conditions should prevail here, and that not more than forty pupils should be assigned to a room.

In West Concord, Eastman, and Merrimack school buildings, old double desks are still in use. They should be replaced by single desks at the earliest opportunity. Many of them have been cut and defaced in by-gone days and still offer to the willing pupil great inducement to achieve fame by inscribing his name upon the already well-carved surfaces. There is also pressing need of new sets of encyclopedias.

NEW BOOKS AND OTHER CHANGES.

The new books introduced this year have been Davenport's Zoölogy, St. Clair's Caesar for Beginners, Speer's Arithmetic I, Werner's Arithmetics, Lights to Literature I, Cyr's Second Reader, and Cyr's Fifth Reader; also, a spelling list for grade seven, and a pamphlet for review of grammar in grades eight and nine were prepared by me. The general character of the school work is not inferior to that of last year. The system of promotions has been changed in one respect. Pupils are now excused from final examinations in those studies only in which they have an average of 75 per cent., a rule which seems more just than granting such a privilege on a general average.

TEACHERS.

Each successive year brings changes in the corps of teachers so that in time it becomes entirely made over. On looking at the list for 1885, I find that but ten who were teaching then are now reckoned as teachers in the district. Seventy-five per cent. have dropped out—an average of five per cent. each year. This fact was one of the prime causes of

the establishment of the training school. A corresponding change has taken place in regard to school requirements, and invariably tends towards scientific instruction. School work has become so exacting both as to the amount and quality of the work to be done that a teacher who has never had normal training, or its equivalent in successful experience, is not now considered an available candidate in many of the leading cities. A large percentage of our teachers are trained—the majority coming from the city training school. These have the advantage of knowing the requirements of our course of study. Nevertheless, there is always danger that a corps of teachers may become so localized as to greatly impair the efficiency of school instruction. Normal training goes only so far. It can never furnish what other scenes, customs, and environments give for a comprehensive equipment for teaching. A certain percentage of any corps should come from other localities. They usually act as a “spice to the sauce,” and often bring methods and ways that set home teachers to thinking. The success of our schools reduces to a question largely of trained competent teachers, in whom the most vital element to be considered is character. The pupils have a right to demand that a teacher be pure in thought and action, and that she possess self control to such a degree as to preclude the possibility of involving the good name of our schools by unseemly freaks of temper and foolish action in any form. If a teacher possess a pure character and the other essential elements of a lady, shortcomings in other directions may not be so harmful.

The district has been quite unfortunate during the past year in the loss of teachers.

Miss Mary J. Gannon died suddenly during the spring of 1900. She had been in the employ of the district for many years. Having taught a primary school for an extended period she was obliged to seek rest and recuperation on account of ill health. During this period of rest she supplemented her natural aptitude for cooking by a course at the Boston cooking school, and afterward succeeded Mrs. Georgia L. Greene as instructor of cooking in the public schools of Union School District. In this capacity Miss Gannon won

signal success and left a record worthy of emulation. She was ever kind, courteous, faithful, and obliging, endearing herself to all with whom she came in contact and leaving an impress upon the minds of her pupils no less marked than her success in her chosen work.

The district was also unfortunate in the loss, by resignation, of Miss Kate P. Blodgett, who for twenty-five years past had served it in a conscientious and efficient manner. It is indeed rare that we find such a long record of public service with a loss of but three weeks' time. I do not know that any commendatory remarks of mine can brighten such a record. A woman with a keen sense of right and wrong, firm in discipline but kind of heart, always seeking to elevate by maintaining her idea of right sometimes even at the expense of being popular with the parents, surely the district can ill afford to lose the services of such teachers and can but say that her service was one not to be paid in money.

TRAINING SCHOOL.

The courses heretofore in force have done efficient work. The rules adopted limiting the applicants to a stated scholarship standing has had the effect of securing more promising candidates from a scholastic standpoint. Those pupils now in the high school who are intending to enter the training school are supplementing their courses by such studies as are thought to be necessary for properly preparing for the training course. It is gratifying to know that all the members of the graduating class of last December obtained positions in neighboring towns and were successful in their efforts. No better training can be had than applying theoretical instruction in schools where but few of the ordinary conveniences of city schools are obtainable. Such conditions tax a teacher's ingenuity and bring out all her natural resources. This will render teaching in the strictly graded schools more valuable. A teacher who, after graduation, waits for a position in the regular schools rather than take a less desirable one in the country, grows stale and is not worth nearly as much to the city as one who has faced the stern realities of the country school.

I would not be justified in saying that the school is perfect in all its details but its influence upon the standard of school work in the city is unmistakably beneficial. The teachers who have recently graduated here and entered the regular schools have not shown the vivacity of manner nor the nervous energy that were plainly apparent in the earlier graduates, and at the outset are not so efficient disciplinarians. This may be due to many different causes, but it is safe to say that while they may lack in this respect, they are much better equipped in other respects. Their knowledge of children and the requirements for successful child-training are manifestly superior, and if this were coupled with the life and fire formerly so marked we should never be in want of model teachers. The character of the instruction is practically unchanged from that of last year, and the school has been managed with the usual skill.

KINDERGARTENS.

No new kindergartens have been established this year. In the fall it was deemed wise to try a new scheme. It was found that the children were harmed by being subjected to two different systems of instruction upon the same day. The laxity and freedom of the kindergarten, and the more restraining methods of primary work did not admit of proper assimilation. The schools were accordingly divided into two divisions, the forenoon class taking only kindergarten work and the afternoon class only primary work, no pupil being allowed to take both. This was put in operation in all buildings where a kindergarten had been established. The plan has worked without friction and the results have been admirable. The only adverse criticism I would make is the imperfect primary training of the average kindergartner. Before long the district will see the advisability of training its own teachers in kindergarten methods and require of them careful training in primary work also. I am confident that I can arrange such a scheme with but little extra first cost and one that in a few years would be a decided saving to the district.

I think the kindergartens have accomplished much the past year. Their efficiency and popularity do not wane, and

their effect upon the following work is conceded, in the main, to be beneficial. If the attendance at the two south end kindergartens is not very materially increased it would be wise to consolidate them next year.

DRAWING.

The amount of money per capita expended for drawing during the last year has been \$0.49. This includes all which may be classed as expense for this branch. It has seemed to me that before this we were not having an adequate return for the money expended. It is with no little satisfaction that I am able to report a decided change since the beginning of the fall term. A constantly increasing interest is manifest among the pupils. They are beginning to see that there is an artistic side to drawing and that in addition to dry technique, soul and sentiment are elements to be cultivated. We were fortunate in securing the services of Miss Grace L. Bell of Darien, Conn., who, equipped with a natural aptitude for the work, a technical training at Pratt Institute, and a general training as teacher, has aroused an interest which has not been manifest here for a number of years. The object of her work is to develop a power to recognize and appreciate the beautiful in nature and art; to facilitate manual expression, and to cultivate the power of originality. The industrial as well as the esthetic side is receiving due attention. Water-color work is to be introduced next term. There is demand for the allotment of more time for this work but conditions will not admit of it at present. The instructor desires very much that the Board of Education and the citizens in general interest themselves in the subject of school-room decoration. The studio class needs rooms better lighted and more cheerful, and the accommodations at the high school are so limited as to cause much valuable work to be omitted.

MUSIC.

Thorough instruction in sight reading has been done in the first four grades, also much drill has been given in simple tone production. In the fifth and sixth grades the pupils have been drilled in both parts of two-part singing. Theory of chords

and harmony has been taught in grades seven and eight. In grade nine the singing has not been good because the classes are so small that the required volume of tone cannot be obtained. In the high school the chorus numbers about sixty voices. Besides the usual miscellaneous work, "The Wreck of the Hesperus" by Anderton was given to the public on February 16th, the chorus being assisted by the best local talent. The value of the musical instruction in the schools is made manifest in our city church choirs and in a splendid local chorus of 165 voices, an unusually large number for a city of this size.

COOKING.

During the past year there have been three different instructors in cooking. Miss Eliza W. Buckingham taught the unexpired term of Miss Gannon. She was succeeded by Miss H. C. Gilmore, who has done conscientious work. In the lower schools the usual course of experimental cooking has been followed, and household economics continues in the high school classes. There is need of some conveniences which cost but little. The number of visitors has been 22.

SEWING.

The instructors of last year were retained and the school is now equipped as far as desirable. The quantity and quality of the work are reported better than that of last year. A number of pupils have sought excuses from the work and the discipline at times has given the instructor much trouble. On account of bad ventilation and lack of room the ward room on West street was discontinued during the winter term. The usual exhibition will be held in June.

WOOD AND IRON WORKING.

An addition to the building was made last summer on the south side, the dimensions being 30 ft. by 10 ft. It is well-constructed, well-lighted, and devoted exclusively to iron-work. One engine lathe and a number of small tools were purchased to make the outfit complete. An increase in the number of pupils caused this purchase and made additional

help in instruction necessary, and accordingly Mr. Charles F. Moore, a graduate of Worcester Polytechnic Institute, was employed and has proved to be a valuable assistant. An increase of 38 pupils over last year called for the construction of more benches. The interest continues unabated and the execution of the work is good. The monotony of the regular work has been varied by the construction of about fifty small tables which are well made and useful. The iron work is improving and the number of pupils to be trusted alone with the tools is steadily increasing.

HIGH SCHOOL.

The High school work has been conducted in much the same manner as heretofore. The courses remain unchanged and the principal reports an unusually prosperous year. The new teachers elected began their work in September and have done creditable work. The school has been favored with a series of talks upon topics of interest and the teachers and pupils take this opportunity to express their keen appreciation of the privilege and their sincere thanks to all who so kindly volunteered their services. A list of these talks is appended:

"Cuba," Maj. R. H. Rolfe '80, Oct. 18, 1900.

"Concord Farmers Seventy Years Ago," Col. Abial Rolfe, Oct. 25th, 1900.

"The Transvaal," John P. Wright '89, Nov. 2, 1900.

"Incidents of the Civil War," Maj. Jas. E. Randlett, Nov. 8, 1900.

"Life Insurance," Charles E. Staniels, Nov. 16, 1900.

"The United States Senate," Hon. J. H. Gallinger, Nov. 28, 1900.

"The Common Law," Henry F. Hollis '86, Dec. 6th, 1900.

"Points in the Civil War," Col. John C. Linehan, Jan. 10, 1901.

"College Life," Sherman E. Burroughs '90, Feb. 8, 1901.

"Agriculture," Hon. N. J. Bachelder, Feb. 15, 1901.

"Life at Vassar," Mrs. Mary P. Woodworth, Feb. 28, 1901.

"A Trip to Europe," Miss Carrie E. Evans, Mar. 14, 1901.

MILITARY DRILL.

The report of the instructor shows that the results of military drill in our high school compare favorably with any other high school having this branch in its curriculum. The annual exhibition was the most successful ever held; the discipline for the past two terms better, a larger number of boys than ever are under instruction, about eighty per cent. of which are uniformed. The "setting up" exercises each morning in which the boys and girls take part are calculated to improve the personal appearance by insuring a proper carriage of the body. A number of arms and equipments were purchased, some of which were made obtainable through the courtesy of Gen. A. D. Ayling.

The work of the girls continues good but they would derive more benefit from the drill if they would adopt a simpler and more rational mode of dress.

The instructor asks for more rifles for the boys, and light, wooden dumb-bells for the girls. It seems to be a reasonable request and ought to be granted.

There have been frequent expressions and manifestations of interest by the citizens and the instructor has performed his duties in an efficient manner.

OBJECT OF OUR SYSTEM.

The aim of the course of instruction in our schools is to furnish the pupil with a power of mind which he can use to the best advantage in his life's work. Every new method in education must stand the fire of criticism and if the beaten paths of a quarter of a century are disturbed some grumbling must ensue. It is often remarked that the schools of to-day offer curricula too crowded and superficial, so much so that the physical strength and mental growth of the pupil are impaired. It is almost always the case that this criticism comes from people who do not give serious thought to the educational methods of the day in the light in which they ought to be seen. This criticism has always been in stock. It was in force when the three R's occupied the school time, which was given to troubling the teacher and where "barring

out" and other practices of a similar character usurped the time which ought to have been employed in nature study, music, and drawing. The specious arguments usually accompanying such criticisms are sufficiently refuted by the fact that the pupils of Union District, as a body, are neither overcrowded with studies nor dissatisfied with school requirements. This is especially true of the grammar and primary schools. There may be a few pupils in the high school and ninth grade grammar schools, who, through voluntary competition for class honors, apply themselves too closely for their own good, but this is not due to too strict scholastic requirements nor too stringent methods. Such pupils care more for the fame of standing well in their classes than for the best educational equipment. Another class of pupils who furnish the greater number of complaints are those who through over-indulgence at home, and a desire for social recognition, attempt to assimilate social functions and school work. If the human system rebels against such an arrangement, human ingenuity seeks something upon which to place the responsibility. It naturally seeks that which is the least detectable and in consequence school work is named as the culprit. Fortunately the pupils of this class form hardly a respectable minority; and the great majority perform their work uncomplainingly and with profit. There are prevailing conditions of school work which are open to just criticism. I have no doubt that children pass unhappy hours in school; that teachers make serious mistakes; that the superintendent does not always exercise that judgment that may reasonably be expected of him; but place all of these and kindred criticisms in one scale of the balance and the good done by the schools in the other, and I am convinced that the good will not be found wanting in weight. The well filled rolls of honor; the tears of both pupils and teacher on transferring; the many Thanksgiving dinners furnished the poor of the city by the pupils; the little inexpensive gifts on the school Christmas tree—gifts of the heart not of the pocket; a reciprocal interest expressed by teacher and pupil in case of misfortune—these show the cultivation of an interest, sympathy, and benevolence not to be learned of books. It is the education of the heart and soul usually lost sight of in esti-

mating the value of school work, but its silent influence will somehow, somewhere, be felt, and the world will be the better for it. Waving aside the many educational advantages gained by modern educational methods, the broad field of humanity offers conclusive evidence of the value of our school work. If we are prone to recite the virtues of former school methods, let us remember that compared with them, the schools of to-day show a better conservation of school time, more scientific methods of teaching, and more respect for the cultivation of the finer sensibilities of the child mind. Succeeding years will reap the advantages of the present educational work of our schools and whatever I may have had in bringing this about is more than equally shared with the Board of Education and the interested citizens of Union School District.

L. J. RUNDLETT, *Supt.*

ROLL OF HONOR
OF THE
SCHOOLS OF UNION SCHOOL DISTRICT.

FOR THE YEAR ENDING JUNE 23, 1900.

HIGH SCHOOL.

DEWEY SCHOOL.

DEDICATION THURSDAY, JANUARY 31, 1901.

ORDER OF EXERCISES.

- I. Invocation, Rev. Geo. H. Reed.
- II. Singing by pupils from the public schools.
- III. Report of building committee and delivery of keys.
- IV. Acceptance by the president of the board of education.
- V. Singing.
- VI. Address by Rev. Harry P. Dewey, D. D.
- VII. Presentation of flag on behalf of the W. R. C., by Mrs. James Minot.
- VIII. Response by the president.
- IX. Singing—America.
- X. Benediction.

THIRTEENTH ANNUAL ELOCUTIONARY CONTEST

BY THE PUPILS OF THE PUBLIC SCHOOLS OF UNION SCHOOL DISTRICT, AT PHENIX HALL, THURSDAY EVENING, MARCH 21, 1901.

PROGRAMME.

Music—Vocal Gavotte. Arr. from *Bohm*, Chorus.

Original Declamation.

- | | |
|-----------------------------------|--------------|
| 1. "Superstition," | High School. |
| Idella Maud Maxfield. | |
| 2. "The Safeguard of the Nation," | High School. |
| Charles Lester Roberts. | |

* First Honor.

** Second Honor.

*** Third Honor.

3. "John Stark," High School.
Joseph Percival Nichols.
4. "Some Results of Invention," High School.
Ethel May Paige.
5. "1726," High School.
Grace Leverett Aldrich.

Music—*a.* Vocal March—"The Call to Arms," *Veazie*,
Chorus.

b. Quartette—"Snowflakes." Arr. from *Cowen*,
Misses Fiske, James, Buntin, and James.

Forensic Declamation.

1. "Regulus Before the Roman Senate" (E. Sargent),
Chandler School.
George Wilfred Hanlon.
2. "The Dignity of Labor" (Newman Hall),
West Concord School.
Sherman Hall Murray.
3. "Public Opinion" (Webster), Merrimack School.
Carl Duncan Kennedy.
4. "The Home of the Government" (Henry Grady),
Kimball School.
Jerome Hall Stewartson.
5. "Truth and Victory" (D. C. Scoville), High School.
Fred Silver Putney.

Dumb-bell Exercise by the pupils of the Chandler First
Grammar School, Luella A. Dickerman, Teacher.

Miscellaneous Declamation.

1. "The Paupers" (Couch), Merrimack School.
Grace Olivia Anderson.
2. "A Triumph Through Faith" (Mary Wilkins),
Moody Dole Holmes. High School.
3. "Miggles" (Bret Harte), High School.
Mabel Phylinda Horne.
4. "Sonny's Diploma" (Ruth McEnery Stewart),
Kimball School.
Hattie Clara Trask.

5. "A Pathetic Incident of the Rebellion" (Anon),
Chandler School.
Bessie Azubia Clough.

6. "In Birchy Copse" (Geoffrey Mortimer),
West Concord School.
Katherine Teresa Hughes.

Music—*a.* Waltz—"New Life," *Geibel*,
Chorus.

b. Quartette—"Voices of the Woods."
Arr. from *Rubenstein*.

Award of Prizes.

Original Declamation.

First Prize, \$20, awarded to Charles Lester Roberts.
Second Prize, \$6, awarded to Idella Maud Maxfield.

Forensic Declamation.

First Prize, \$6, awarded to Fred Silver Putney.
Second Prize, \$4, awarded to George Wilfred Hanlon.

Miscellaneous Declamation.

First Prize, \$10, awarded to Moody Dole Holmes.
Second Prize, \$6, awarded to Mabel Phylinda Horne.
Third Prize, \$4, awarded to Katherine Teresa Hughes.

Special Prize, awarded to best speaker of the school which took
no prize.

\$1 awarded to Hattie Clara Trask, Kimball School.

\$1 awarded to Grace Olivia Anderson, Merrimack School.

BOARD OF JUDGES.

Gen. George T. Cruft, Bethlehem, N. H.
Arthur T. Cass, Esq., Tilton, N. H.
Sherman E. Burroughs, Esq., Bow, N. H.

THE BOARD OF EDUCATION.

ORGANIZED SEPTEMBER 10, 1859.

LIST OF MEMBERS AND TERM OF SERVICE, 1859-1901.

OFFICERS OF UNION SCHOOL DISTRICT, 1859-1901.

Moderators: Asa Fowler, 1859, '63, '68, '69, '70, '72. Samuel Coffin, 1860. Dudley S. Palmer, 1861. Amos Blanchard, 1861. Henry E. Sawyer, 1862, '64. Thomas P. Treadwell, 1862. P. B. Cogswell, 1863. William E. Chandler, 1863, '64. Charles P. Sanborn, 1865, '73. Anson S. Marshall, 1866. John Kimball, 1867, '76, '77, '79, 1880-1888 inclusive. Enoch Gerrish, 1871. Geo. A. Pillsbury, 1873, '74. William M. Chase, 1875. Benjamin E. Badger, 1876. William H. Buntin, 1878. E. H. Woodman, 1889, '90, '91. Charles C. Danforth, 1892-1901 inclusive. James O. Lyford, 1897. Samuel C. Eastman, 1898.

Clerks: Jeremiah S. Noyes, 1859. Stillman Humphrey, 1860-1894 inclusive. Willis D. Thompson, 1895, '96, '97. Louis C. Merrill, 1898-1901 inclusive.

The following persons served as clerks *pro tem.*: Paltiah Brown, Aug. 17, 1861. S. C. Eastman, April 8, 1865. William M. Chase, July 8, 1871. Thomas B. Little, March 24, 1877. Isaac W. Hammond, March 28, 1884.

* Deceased.

† Henry E. Sawyer, principal of the High School, performed the duties of superintendent of schools, in addition to those of instructor, in 1862-'63.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

To the inhabitants of Union School District qualified to vote in district affairs:

You are hereby notified to meet at the city hall in said district on Thursday, the 28th day of March, 1901, at 7 o'clock in the evening to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the board of education for the past year.
4. To choose three members of the board of education to hold office for three years, to fill vacancies arising from the expiration of the term of office of Henry C. Brown, Amos J. Shurtleff, and Willis D. Thompson, and also fill any other vacancies which may occur in said board.
5. To choose one or more auditors, and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including industrial education, military drill, and calisthenics.
8. To see what sum of money the district will raise and appropriate for repairs of school buildings during the ensuing year.
9. To see what sum of money the district will raise and appropriate for extraordinary repairs of school buildings during the ensuing year.
10. To see if the district will vote to erect a new school building on the lot now occupied by the Rumford school

building, to take the place of the present school building; raise and appropriate money, and make all other necessary arrangements therefor.

11. To see what action the district will take with reference to funding the present indebtedness arising from the building and furnishing of the Dewey school, and with reference to providing payment of said indebtedness as it becomes due, and what arrangements if any the district will make with the City of Concord for its aid in funding said indebtedness, under the act of the legislature passed in the session of 1889, entitled "An Act to Authorize the City of Concord to borrow money in Aid of its School Districts," and to appoint all necessary agents to carry out such vote of the district as it may take, into effect.

12. To transact any other business that may legally come before said meeting.

Given under our hands, this 12th day of March, 1901.

CHARLES R. CORNING,
EDWARD N. PEARSON,
HENRY C. BROWN,
A. J. SHURTLEFF,
JOHN C. ORDWAY,
SUSAN J. WOODWARD,
SUSAN C. BANCROFT,
JOHN M. MITCHELL,

Board of Education of Union School District.

ANNUAL MEETING OF UNION SCHOOL DISTRICT.

CONCORD, N. H., March 29, 1900.

Agreeably to the warrant a meeting of the legal voters in Union School District was held at the city hall this 29th day of March, 1900, at 7 o'clock in the evening and was called to order by the moderator, Charles C. Danforth, who read the foregoing warrant :

ARTICLE 1. John M. Mitchell moved to proceed to the election of a moderator and that the clerk cast one ballot for Charles C. Danforth ; motion carried and the vote cast by the clerk, Charles C. Danforth having one, and the only vote cast was declared elected moderator, and the oath of office was administered by John M. Mitchell, justice of the peace.

ART. 2. Charles R. Corning moved to proceed to the election of a clerk ; motion seconded and carried ; Mr. Corning cast one vote for Louis C. Merrill, who, having the only vote was declared clerk for the ensuing year, and took the oath of office, administered by John M. Mitchell, justice of the peace.

ART. 3. John P. George moved that the report of the Board of Education of Union School District be dispensed with and printed in the City Report ; motion seconded and declared adopted.

ART. 4. Charles R. Corning moved to proceed to vote for three members of the Board of Education on one ballot, and that the polls be kept open until 8 o'clock ; motion seconded ; motion declared adopted by the moderator.

Moved by Mr. John P. George that pending the balloting the other articles of the warrant be taken up and disposed of ; motion seconded ; a vote was taken and the motion declared carried.

ART. 5. Moved and seconded that J. C. A. Hill and William Yeaton be elected as auditors for the ensuing year; a vote was taken and the above mentioned gentlemen were declared elected.

ART. 6. John C. Ordway offered the following resolution:

Resolved, That there be raised by tax on the polls and ratable estates within Union School District, the sum of sixteen thousand five hundred dollars (\$16,500) of which sum fifteen thousand dollars (\$15,000) shall be appropriated for the payment of the bonds maturing July 1, 1900, and fifteen hundred dollars (\$1,500) for the payment of interest on the funded debt accruing during the year.

Mr. Ordway moved the adoption of the resolution; motion seconded; a vote taken and moderator declared the resolution adopted.

ART. 7. A. J. Shurtleff offered the following resolution:

Resolved, That there be raised by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools will amount to the sum of forty-nine thousand five hundred and seventy-three dollars (\$49,573). Mr. Shurtleff moved the adoption of the resolution.

The hour for closing the polls having arrived, as fixed by motion of Mr. Corning under Article IV, the polls were declared closed by the moderator.

Mr. Shurtleff's motion to adopt the resolution offered by him was seconded, a vote taken, and moderator declared the resolution adopted.

ART. 8. Mr. Ordway moved that the resolution be passed over, as Mr. Shurtleff's resolution included this article; motion seconded and declared adopted.

ART. 9. No business presented and article passed.

The moderator then counted the votes and declared the ballot as follows:

Total number of votes cast	.	.	.	92
Necessary for a choice	.	.	.	46
Henry F. Hollis	.	.	.	2
Chancey E. Adams	.	.	.	43
John C. Ordway	.	.	.	45
Edward N. Pearson	.	.	.	46
Susan J. Woodward	.	.	.	47
Ola Anderson	.	.	.	46

Moderator declared Susan J. Woodward as elected.

Harry B. Metcalf moved that the meeting adjourn for one week to Thursday, April 5, 1900, at 7 o'clock in the evening. Motion seconded, a vote taken and moderator declared the motion adopted.

A true record.

LOUIS C. MERRILL,
Clerk.

CONCORD N. H., April 5, 1900.

Agreeable to a vote adopted March 29, 1900, an adjourned meeting of the legal voters in Union School District was held at the city hall on April 5, 1900, at 7 o'clock in the evening and was called to order by Moderator Charles C. Danforth.

Mr. George H. Moses moved that the meeting proceed to elect two members of the Board of Education and that they be balloted for on one vote. Motion adopted and the polls declared opened.

Moved by Mr. Moses that the polls be closed at 8:30 o'clock, and at that hour the polls were declared closed by the moderator.

The moderator appointed Eben S. Willis and Harry B. Metcalf as tellers to assist in sorting and counting the votes.

Moderator declared the ballot as follows:

Total number of votes cast	.	.	.	991
Necessary for a choice	.	.	.	396
N. F. Carter	.	.	.	1
Fred Leighton	.	.	.	10

Charles J. French	10
Chancey E. Adams	18
Mary Martin	49
Anthony C. Hardy	33
William H. Sawyer	81
Chancey Adams	175
John C. Ordway	545
Edward N. Pearson	663

Moderator declared John C. Ordway and Edward N. Pearson elected.

On motion of W. D. Thompson voted to adjourn.

A true record.

LOUIS C. MERRILL,
Clerk.

SPECIAL MEETING.

To R. E. Walker, Justice of the Peace for the County of Merrimack:

The undersigned, ten and more legal voters in Union School District, in Concord, in said county, respectfully represent that, on the second day of July last, ten and more legal voters in said district made a written application to the Board of Education for said district to call a meeting of said district of which the following is a copy:

CONCORD, N. H., July 2, 1900.

“The undersigned legal voters respectfully request the Board of Education to call a special meeting of the voters of Union School District for the purpose of considering:—

1. How much money the district will raise and appropriate for fire escapes.
2. How much money the district will raise and appropriate in gross or detail to correct defective lighting and heating and ventilation in the Walker, Merrimack, Chandler, Rumford, and Penacook school buildings.
3. How much money the district will raise and appropriate to build, or lease and furnish new schoolrooms to

relieve the crowded condition of the school buildings in Wards 6 and 7.

4. To consider any other question that may properly be discussed at a school meeting.

Signed: W. C. Green, Fred S. Hall, Geo. F. Underhill, Arthur K. Day, E. H. Lane, William W. Elkin, George W. Abbott, N. E. Elkin, I. J. Hutchinson, J. C. Tilton, Samuel Rodd, Alpheus M. Johnson, William H. Sawyer, Arthur G. Stevens.

Yet said Board of Education has neglected to issue a warrant and post a copy thereof for such a meeting, and more than ten days have elapsed since said application.

Wherefore they request you to call such a meeting at a suitable time and place and for the purposes stated in said application, dated at said Concord this 16th day of July, 1900.

W. C. Green, Samuel Rodd, Alpheus M. Johnson, Geo. F. Underhill, A. G. Stevens, Wm. W. Elkin, Wm. H. Sawyer, Edward H. Lane, N. E. Elkin, George W. Abbott, Arthur K. Day.

The foregoing is a true copy of the petition to R. E. Walker, justice of the peace.

Attest:

LOUIS C. MERRILL,
Clerk.

State of New Hampshire,
Merrimack, ss.

*To the inhabitants of Union School District in Concord,
N. H., qualified to vote in school district affairs:*

Pursuant to an application dated the sixteenth day of July, 1900, by ten and more legal voters of said district, to me a justice of the peace for said county, by reason of the neglect of the Board of Education for said district to call a meeting of said district in accordance with an application therefor, signed by ten and more legal voters of said district and filed with said board on the second day of July, 1900, you are notified to meet at the city hall in said district on the second day of

August, 1900, at 7:30 o'clock in the afternoon, to act on the following subjects :

(Articles the same as in the foregoing warrant.)

Given under my hand this eighteenth day of July, 1900.

R. E. WALKER,

Justice of the Peace.

CONCORD, N. H., August 2, 1900.

Agreeably to the foregoing warrant, a meeting of the legal voters in Union School District was held at the city hall this second day of August, 1900, at 7:30 o'clock in the evening, and was called to order by the moderator, Charles C. Danforth, who read the foregoing warrant :

ARTICLE 1. Mr. William H. Sawyer offered the following resolution :

Resolved, That there shall be raised and hereby is ordered to be raised by a loan to be obtained by the board of education, or through its financial agent, the sum of twelve hundred dollars to be used and expended as follows, to wit :

Said sum or so much thereof as need be, to be expended for fire escapes to be placed on the various school buildings in the district under the direction of a committee consisting of Charles R. Corning, W. C. Green, and Thomas J. McNulty. Said committee is hereby instructed to erect said fire escapes within six months next following the passage of this resolution.

Said committee is hereby empowered to fill any vacancies which may occur within its body.

Mr. George H. Moses moved to indefinitely postpone the article ; motion seconded, a rising vote taken, and the moderator declared the article indefinitely postponed by a vote of 26 to 21.

ART. 2. Mr. George H. Moses moved that the matter be referred to the board of education with instruction to report at the next annual meeting.

At the request of Mr. William H. Sawyer, Mr. Moses withdrew the motion, and Mr. Sawyer offered the following resolution :

Resolved, That there be raised and is hereby ordered to be raised by a loan to be obtained by the board of education or through its financial agent, the sum of thirty-five hundred dollars to be used and expended as follows, to wit :

Said sum, or so much thereof as need be, to be expended to correct defective heating, lighting and ventilation in the Walker, Merrimack, Chandler, Rumford and Penacook school buildings under the direction of a committee consisting of A. J. Shurtleff, Giles Wheeler, and E. B. Hutchinson ; said committee to use its discretion as to how much of said sum shall be expended upon any of said buildings, but to act upon said matter within the six months next following the passage of this resolution.

Said committee is hereby empowered to fill any vacancies which may occur within its body.

Mr. Sawyer moved the adoption of the resolution.

Mr. G. H. Moses moved to indefinitely postpone the resolution and his motion was seconded.

Discussion of the resolution then followed by Dr. S. C. Morrill, W. H. Sawyer, John P. George, James M. Killeen, James E. Randlett, and John M. Mitchell.

A rising vote was taken on Mr. Moses's motion to indefinitely postpone resolution and the motion was declared as lost by a vote of 27 to 31.

Mr. Sawyer's motion to adopt the resolution was seconded.

Mr. John P. George offered the following substitute for Mr. Sawyer's motion :

Voted, That the board of education be and hereby are authorized to investigate, by the aid of experts, if necessary, the condition of the schoolhouses of the district with respect to ventilation, lighting, and heating, and report to the next annual meeting of the district, the result of such investigation and recommend such changes or improvements, if any, as may be found necessary and practicable, with the estimated

cost of such changes or improvements, thereby enabling the district to intelligently consider the subject, and if changes or improvements are found necessary, that the district may appropriate the necessary amount therefor.

Mr. George moved the adoption of the substitute and his motion was seconded.

Mr. E. C. Niles moved to amend Mr. George's substitute motion by substituting " At an adjourned meeting to be held the last Tuesday in September at the same hour and place " for the next annual meeting.

Mr. Niles's motion to amend was seconded.

A vote was taken on the amendment and declared lost by the moderator.

A rising vote was then taken on the substitute of Mr. George, resulting in a tie vote 32 to 32.

Another rising vote was taken and moderator declared the substitute adopted by a vote of 36 to 32.

ART. 3. Mr. A. F. Sturtevant moved to lay the article on the table ; motion seconded ; a vote taken and motion declared adopted.

Mr. Sturtevant moved to adjourn. Adopted.

A true record.

LOUIS C. MERRILL,
Clerk.

REPORT OF THE BOARD OF EDUCATION FOR
DISTRICT NO. 20, FOR YEAR ENDING
MARCH 31, 1901.

In submitting this our annual report, your committee are unanimous in pronouncing the year just closed one of unusual progress and prosperity, both as to the amount and character of work done and for average attendance.

The same corps of teachers has been employed for the last year as was the preceding year; all have worked faithfully and along coöperative lines; not only for the interests of their individual rooms, but for the school as a whole, and we consider that satisfactory results have been accomplished in all departments.

The general attendance for the past year has been fair. We consider it an unusual year in the matter of being free from epidemics. A few reported cases of diphtheria in the fall, affected the attendance seriously for a few weeks. The prevalence of grip and severe colds during the winter has lowered the average attendance somewhat.

Schools have been closed one and one half days on account of storms.

Very little change has been made in the course of study during the year, the introduction of the spelling book and daily recitations in spelling in all the grades being the only change.

The examination and graduating exercises which are customarily held at the close of the spring term, were necessarily dispensed with last year on account of the illness of the principal. The following pupils were graduated, and certificates were issued to the same: Fred C. Abbott, Nellie Kenney, Ralph G. Morse, Walter Neller, Lewis Prescott, Beryl Rob-

ertson, Ralph Sherburne, Agnes Tierney, Edward Linehan, and Katherine Ward.

Your committee has superintended a few needed repairs. New floors have been laid in the first and second primary rooms, and a radiator put into the upper hall. Other repairs are in process of completion, with a view to improving the sanitary conditions. The ventilating flue of the sewer is to be disconnected from the ventilating flue of the rooms and carried direct to the roof; the present urinal is to be replaced by a porcelain-lined one with automatic flush arrangement; also a check valve is to be placed in the sewer to prevent water flowing back into the basement. These changes are made at the suggestion of Health Officer Palmer; when completed he said they should make our sanitary arrangements perfectly satisfactory.

The services of the truant officer have been efficient for the last year, and we believe the employment of this special officer has been of much benefit to the district. A new census of the school children will be taken during the month of April.

We are aware that there has been some comment in regard to the overcrowding of the pupils. We would say in explanation that in order to meet the requirements for admission to the Concord High school, which requirement we really feel is demanded of us, it is absolutely necessary for the pupils in this district to apply themselves very closely to their studies. This can be accounted for in the fact that our own pupils have nine years only in which to fit for the high school, while in the Union District they have practically eleven years, there being a year in the kindergarten and a year in the sub-primary before taking up the regular primary work.

For quite a number of years back, it would be safe to say, ever since the Concord High school was brought to its present high standing, our graduates have experienced a difficulty in passing the entrance examinations for admission to that school. We are pleased to report, however, better success in this direction for the last few years. The results of the examinations for the last four years being as follows: Class of '97, not any passed; class of '98, five examined, two passed; class of '99, five examined, four passed; class of '00, four exam-

ined, four passed. As long as the present system of grading prevails in this district, and we require our pupils to do a certain amount of work in less time than the same amount of work is done by the pupils in the Union District, it is obvious that our pupils must work harder in order to reach the same standard of excellence.

In this connection, and to relieve these conditions, your committee strongly recommend the establishment of a kindergarten department. Since we require the same amount of work in our school as is required in the grammar schools of the Union District we should give them the same length of time in which to complete it, and the time to make a change seems opportune since the overcrowded conditions of our rooms make it necessary at this time to consider the matter of providing more room.

It has been customary for two grades to occupy each of the three grammar rooms, these rooms accommodating the six higher grades, but last fall owing to an unusually large class being promoted to the third grammar, it was necessary to remove one grade from that room, to make seating room for the new class. This change overcrowded the second grammar and the highest grade in that room was removed to the first grammar room, thus making three grades in the first grammar. By partitioning off a part of the hall for a recitation room it has been possible to accommodate ourselves to these crowded conditions.

But a new problem will arise next year. The large class in the third grammar when promoted to the second grammar room next fall will be all that can be accommodated in that room, thus leaving one grade unprovided for.

The membership at present exceeds that of any previous year in the history of the school, the total registration for the last two terms being 325 pupils, which, with the exception of the first primary, which has considerably more than its quota, are nearly equally distributed among the different rooms.

OSCAR E. SMITH,
IRA C. PHILLIPS,
Board of Education.

REPORT OF THE TOWN SCHOOL DISTRICT.

Comparing the work of the past year with that of previous years, we are able to report commendable progress. Of the eleven teachers employed during the winter term, nine have been in the service of the district the entire school year. Of this last number, most of them have held their positions from two to seven or eight years.

It cannot be denied that where teachers of recognized ability are retained through the entire year or for a longer period, better school service is more likely to be found than where a change of teachers is made more frequently.

The number of scholars registered throughout the district is considerably less than last year, while the per cent. of attendance is somewhat higher.

During the fall term twenty-seven names were found on the roll of perfect attendance, and twenty-one during the winter term. The number of scholars not tardy or absent since August 1st, is six.

Our funds have been sufficient to maintain thirty weeks of school and to meet other necessary expenses.

The amount of money raised at our last annual meeting above that required by law, and exclusive of the two hundred dollars raised for the purpose of hiring teachers of vocal music, has, for the most part, been expended in permanent improvements. The house at the Borough has been repaired at an expense of about one hundred dollars. The addition of a new school-room to the house at Millville and a division of that school has been accomplished. This was a needed improvement, and affords much better accommodations to the children of that locality.

The introduction of vocal music in our schools has met with general favor and good progress has been made, more espe-

cially in the larger schools. We believe the parents and citizens generally will not be willing to dispense with these exercises after a fair trial has been made.

ALBERT SALTMARSH,
GEORGE T. ABBOTT,
FALES P. VIRGIN,
Board of Education.

TREASURER'S REPORT.

The treasurer of the Town School District respectfully submits the following statement of the receipts and expenditures for the year ending March, 1901 :

RECEIPTS.

Balance, March, 1900	\$295.94
Regular appropriation	2,283.11
Extra appropriation	900.00
Text-books	182.91
Dog license	72.86
Literary fund	99.10
Town of Hopkinton	5.00
	<hr/>
Total receipts	\$3,838.92

EXPENDITURES.

Paid teachers, including board . .	\$2,366.75
repairs	853.94
conveying scholars	57.75
fuel	68.75
incidentals	90.10
music	174.74
books and supplies	163.93
tuition	14.75
repairs on Stickney hill school house	5.82
truant officer	2.00
treasurer	25.00
cash on hand	15.39
	<hr/>
Total expenditures	\$3,838.92

ISAAC N. ABBOTT, *Treasurer.*

distribution pipe	288,931.38
service pipe	42,489.95

REPORT OF WATER COMMISSIONERS.

To the City Council:

The Board of Water Commissioners beg leave to submit their report for the year 1900.

The accompanying report of the superintendent exhibits the physical condition of the system, also includes pertinent suggestions looking towards extensions and betterments.

The past year has witnessed in many localities a serious shortage in the water supply, in fact, in some places, the drought has been the worst and longest in fifty years. Streams, wells and springs that were never known to fail became absolutely dry, and many city supplies were in great danger. It will be noticed that an abundant supply was held during the dry season in Penacook lake. One reason of this is in the number of meters in use, and the increasing number from year to year will show good results.

It is often claimed that a plant owned by a municipality, must be in fact a free thing, so that the question of free water is often discussed. A recent article contains the following:

“There certainly can be no such thing as free water, unless, perhaps, it is when a man takes his bucket, goes to the source of supply, and even then, if his time is worth anything, the bucket of water has an appreciable cost.

“It is rightly held that there can be no such thing as free water when it is delivered through pipes as in a city's water works. Some one must pay for the cost of delivery, each and every gallon; and, if some one has free water, it must follow that some user pays more than he ought or else the plant will run at a loss.

“It is hard to understand why those who use water and pay for it should be asked not only to pay for what they use themselves, but, in addition, to furnish water used in parks, schools

and hospitals, or that they should be requested to keep the watering troughs filled for the benefit of thirsty horses, fountains playing, sewer flushing or fire purposes, and the other uses for which it is expected the city will have free water.

“A fire hydrant is located in front of a man's premises ; his insurance rate is affected by that circumstance. It is made lower. At the same time he may be buying his water of a private company and not contribute one cent towards paying for the direct benefit of the fire protection. This is not right because it is not just. The cost of water for fire protection should be spread upon all the taxable property of the city in exactly the same manner as the expenses of maintaining a fire department are spread.”

The hydrant rental for the past two years has been cut off, in consequence bonds amounting to \$25,000, which might have been retired in part, were extended.

It is the purpose to complete the 20-inch iron pipe to the gate house the coming year, the third section of 3,000 feet having been laid during this year. Other localities have been relayed as demanded, but the frequent leaks of the cement-lined pipe indicate the difficulty ahead, and this important work will engage the attention of your commissioners the coming year. With a good supply of iron pipe on hand, it is hoped to accomplish much.

The suit for damages which has been in the courts for some time was settled without trial by the payment of a sum agreed upon. This is the first claim ever made upon this department for damages to the person of one of its employees.

The earnings of the works continue satisfactory, and we trust that the reinstating of the hydrant rentals will settle a vexed question and enable your commissioners to rely upon this income, so that the extensions can be made without a large draft upon the city.

The pumping station, under the careful management of the engineer, is doing satisfactory work. The amount of water pumped to the reservoir has fallen below the amount pumped last year, somewhat, yet, from year to year, it averages about the same.

The same careful management has characterized the working

of each department, and much credit is due the superintendent and his assistants for the results obtained.

Respectfully submitted,

WILLIAM E. HOOD,
WILLIAM P. FISKE,
SOLON A. CARTER,
FRANK D. ABBOT,
JOHN WHITAKER,
HENRY E. CONANT,
EDSON J. HILL,
TIMOTHY P. SULLIVAN,
NATHANIEL E. MARTIN, *ex officio*,
Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners :

I herewith present to you the twenty-ninth annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1900 :

RECEIPTS.

For water from consumers by fixed rates	\$25,274.77
For water from consumers by meter rates	31,485.63
From delinquents	52.12
For water used for building purposes .	70.40
rents	121.64
pipe and stock sold, hay, etc. .	124.40
	<hr/>
	\$57,128.96
Deduct abatements	125.25
	<hr/>
Net receipts for 1900	\$57,003.71

EXPENDITURES.

Morrill & Danforth, insurance . .	75.00	
Concord Light & Power Co., gas . .	5.10	
	<hr/>	2,572.61
Total expenditures for 1900		\$27,348.55

The expenditures are divided as follows:

General Expenses.

For care and maintenance . . .	\$3,493.10	
repairs on cement-lined pipe . .	659.79	
new service pipes . . .	1,188.44	
new distribution pipes . . .	13,764.87	
inspection	634.00	
meter account	1,509.88	
work at Penacook lake . . .	192.21	
incidentals	3,333.65	
	<hr/>	\$24,775.94

Pumping Station Expenses.

For salaries, engineer and fireman .	\$1,480.00	
fuel	904.53	
packing and other supplies . .	32.73	
gas	5.10	
repairs	75.25	
insurance on boiler	75.00	
	<hr/>	\$2,572.61

EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year, as follows :

On main line,

north from near Moses H. Farnum's to opposite Lake street in West Concord, 3,044 feet 20-inch pipe and one hydrant, in place of 14-inch cement-lined pipe discontinued.

In Clinton street,

west from South Fruit street, 180 feet 8-inch pipe.

In Clinton street,

west from near South Fruit street to Concord State Fair Association grounds, 1,656 feet 6-inch pipe and two hydrants.

In Wiggin street,

west from South Main street, 403 feet 6-inch pipe.

In Engel street,

east from main line, 388 feet 6-inch pipe in place of 1-inch pipe.

In Peabody street,

east from main line, 40 feet 6-inch pipe.

In Princeton street,

south from Clinton street, 340 feet 6-inch pipe and one hydrant.

In Chandler street,

west from Railroad street, 260 feet 6-inch pipe.

On hydrant branches,

79 feet 6-inch pipe ; 77 feet 6-inch cement-lined pipe discontinued.

Also 1,140 feet 1-inch pipe ; 358 feet 1-inch and 72 feet $\frac{3}{4}$ -inch discontinued.

There have been set 16 gates ; discontinued, 2.

Summary of the Foregoing.

NEW PIPES, HYDRANTS AND STOP-GATES.

<i>Pipes.</i>	<i>Hydrants.</i>	<i>Stop-gates.</i>
1-in., 1,140 feet.	W. Concord road, 1	4-in., 2
6-in., 3,166 "	Clinton street, 2	6-in., 12
8-in., 180 "	Princeton street, 1	8-in., 1
20-in., 3,044 "		20-in., 1
<hr/> 7,530 feet, equal to 1.42 miles.	<hr/> 4	<hr/> 16

PIPES, HYDRANTS, AND STOP-GATES DISCONTINUED.

<i>Pipes.</i>	<i>Hydrants.</i>	<i>Stop-gates.</i>
1-in., 430 feet.	Durgin street, 1	4-in., 2
6-in., 77 "		
14-in., 3,044 "		
<hr/> 3,551 "	<hr/> 1	<hr/> 2
equal to .67 mile.		

Total length of main and distribution pipes now in use, 317,860 feet, equal to 60.19 miles.

Total number of hydrants now in use, 267.

Total number of gates now in use, 757.

SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 57 service pipes consisting of

56 $\frac{3}{4}$ -inch,	1,453 feet.
1 2-inch,	22 "
<hr/> 57	<hr/> 1,475 "

There have been discontinued during the year, 5 ; whole number in use at the present time, 3,340 ; total length of service pipes, 78,443 feet or 14.85 miles.

We have set 96 meters during the year ; 1 has been removed ; making the total number now in use, 1,010.

The following table shows the height of water in Penacook lake on the first day of each month :

January . . .	180.60	July . . .	184.30
February . . .	180.85	August . . .	183.45
March . . .	183.50	September . . .	182.90
April . . .	185.00	October . . .	182.35
May . . .	184.90	November . . .	181.95
June . . .	184.70	December . . .	182.60

The lowest point reached during the year was on January 1, being 180.60 ; the highest was April 4, 185.10 ; mean height, 183.09, which was .40 foot lower than the mean height for the year 1899.

The water has been running over the overflow ninety-three days during the year : in March, 17 ; in April, 30 ; in May, 31 ; in June, 15. At no time has the water been lower than forty-four inches below the overflow.

The work of relaying the 14-inch cement-lined main with 20-inch cast-iron pipe was continued from near Moses H. Farnum's to Lake street, West Concord ; there remains about 2,600 feet to complete this work.

The distribution-pipe account may appear rather large for the amount of work done, but it includes the cost of considerable pipe purchased in the spring which has not yet been used and for which \$3,060 was paid.

The service-pipe account has increased some this year and will continue to do so as we renew the original services and put in service boxes at the curbs. We find these curb stops very convenient in shutting off water as they save both labor and disturbing the highways.

In regard to relaying the cement-lined distribution pipes throughout the city, it would seem urgent from recent breaks that more work should be undertaken in this direction each year than has been done in past seasons. At the rate at which we

we have been relaying, it will take about twenty-four years to replace all the old pipes; most of these have already served more than their accredited length of life and unless replaced to a large extent in the next few years, it cannot be but that much trouble and perhaps serious damages will come to this department.

I would recommend that this coming season the following streets be relaid: South State street from Pleasant to Thompson; South street from Pleasant to Thompson; Pleasant street from State to Fremont, and all streets between South State and South streets, from Pleasant to and including Thompson street.

It is also necessary that some repairs be made on the dam at Penacook lake; the high water has washed out around the stone work supporting the fence on the roadway on top of the dam so that it has sunken in some places. I would recommend that this be repaired and further protected by laying several courses of masonry above those now on the water side of the dam.

The report of Mr. Rowell, the engineer, is appended to this, and I wish to express here my appreciation of his efficient services and of the excellent care he has given the pumping station and grounds. To all the employés of the department I feel grateful for their coöperation in the work of the year.

Respectfully submitted,

V. C. HASTINGS,

Superintendent.

Auditor's Report.

I hereby certify that I have examined the books showing the receipts of the Concord Water-Works from January 1, 1900, to December 31, 1900, and find the same correct, and that the total amounts given therein correspond with the amounts of receipts given by V. C. Hastings, superintendent, in his report for the year, and also with the receipts held by him from A. B. Cross, city treasurer.

JAMES H. MORRIS,

City Auditor.

Concord, N. H., Jan. 31, 1901.

REPORT OF ENGINEER OF PUMPING STATION.

PUMPING STATION, CONCORD WATER-WORKS.

V. C. HASTINGS, *Superintendent*:

SIR:—I would report that the pumping machinery at the pumping station is in very good working condition after eight years of service, and will need but few repairs the coming year.

Following will be found a statement of the coal and supplies used at the pumping station during the year, also a table showing the work for each month:

Statement.

127 tons 1,126 lbs. Pocahontas coal.
27 cords of wood.
54 gallons of oil.
26 lbs. of waste.

ENGINE RECORD.

Date.	Pumping time. h. m.	Gallons water pumped.	Daily average pumped.	Total coal burned.	Daily average coal burned.	*Gallons pumped per pound of coal.

HIGHWAY DEPARTMENT.

REPORT OF COMMISSIONER OF HIGHWAYS.

1900.

To the Honorable City Council of the City of Concord :

I have the honor to submit herewith the annual report of the receipts and expenditures of the Highway Department for the fiscal year ending December 31, 1900, together with a statement of work done.

The appropriation for this department for the year 1900 was in a lump sum of \$36,400. In the application of this sum to the different kinds of work to be done the endeavor has constantly been to accomplish the greatest results with the least expenditure consistent with true economy.

Last spring the high water carried away the north abutment of Hackett brook bridge, and the stone work of Shingle Mill brook bridge was rendered unsafe from the same cause. These two bridges have been entirely rebuilt. The bridge across the Soucook river on the road leading to Pembroke Street was replaced with an iron girder bridge (as recommended in the report of this department for 1899) under a contract with the Boston Bridge Works company for the sum of \$928, one half of which was paid by the town of Pembroke.

Odd Fellows' avenue, which has always been in a bad condition for travel, having been laid out as a public way the past year, has been paved with coal tar concrete laid on crushed stone foundation at an expense of \$766.18. Five hundred feet of East Canal street in Ward 1 has been macadamized and a small portion concreted. Main street from Pleasant street to Freight street has been concreted; also that portion of Main

street opposite Capitol street. An attempt has been made to improve the condition of South Spring street. Immediately south of Pleasant street the road-bed was spiked and rolled with the steam roller, but as the foundation or soil underneath the surface was found to be wet and springy, a stone drain, or telford road, will be necessary in order to keep the street permanently in shape and insure an even surface.

I would recommend that an appropriation be made for paving streets, and that Main street from Pleasant street to School street be paved the coming season. This portion of Main street, on account of its situation in the heart of the business district, should be in the best possible condition both as to appearance and use. It is now in such poor condition, as a consequence of the disturbance of its surface by reason of excavations for the laying of pipes, that it must be entirely repaved. I know of no better paving to recommend than block stone. Thousands of paving blocks are cut in Concord every year and shipped to other cities, and a section of first-class stone paving on Main street will not only be the best and cheapest for the taxpayers, in my opinion, but will be an advertisement for one of Concord's largest industries.

The portion of Main street that is in the worst condition is the section lying between Centre street and Pitman street, and it should be repaired next season. The best paving blocks that are now laid on Main street between Pleasant street and School street can be relaid on this section.

The new macadam on Pleasant street has proven so satisfactory that I would recommend its extension to St. Paul's school.

The area of streets sprinkled by the city has been extended from year to year until we now have over twenty miles included in the sprinkled district. The appropriation has always been too small to do the work properly, and the service has not been of the best. More standpipes should be erected, and thus a great saving in time in refilling the carts would be effected. The expense of sprinkling Pleasant street from Liberty street to St. Paul's school has been met by private subscriptions on the part of Christian scientists and St. Paul's school. Two additional new sprinklers must be purchased

before next season to do the work necessitated by the inclusion of this territory within the sprinkled district.

The accompanying tables will give a definite account of all sums received and expended.

Permit me in closing to express my sense of the obligation I am under to His Honor the Mayor, and the members of your honorable body, as well as to citizens generally, for valuable assistance rendered during the past two years; our uniformly courteous relations are very gratifying.

Respectfully submitted,

HENRY H. JOHNSON,
Commissioner of Highways.

REPORT OF CITY ENGINEER.

OFFICE OF THE CITY ENGINEER,

CONCORD, N. H., December 31, 1900.

To the City Council:

In accordance with the ordinance creating this department, its eighth annual report is herewith submitted for your consideration, together with a statement of the work done under its supervision for the year ending December 31, 1900.

The Pembroke Road bridge was examined in company with the commissioner of highways and the selectmen of the town of Pembroke and found to be in such condition that a new structure was desirable. After some discussion, a form of contract was drawn and a plan procured for a new bridge, which has been erected on the old site, with some changes in the height of the old masonry. A statement of the cost of this work will be found in the report of the commissioner of highways.

A statement of the cost of all sewers constructed, the cost of repairs made, and the amount expended for flushing the entire sewer system, during the past season, will be found on the following pages.

No unusual expense has been incurred in repairing the sewers, but there are some sections of the city that have sewers of too small capacity for the areas drained, and some method of relieving them should be adopted. Such time as could be spared from regular work was spent upon the gen-

eral city survey. We now have a map of that portion of the city lying westerly of the Merrimack river and a portion of the section lying easterly of the same. If the appropriation of this department could be increased sufficiently to allow one field party to devote their time to this work exclusively, another season would complete the necessary work.

Considerable extra work was added to this department in preparing plans, etc., for the board of examiners of plumbers, but the results obtained from better sanitary arrangements have been of direct benefit to the public.

The safe in use in this office is too small to contain our records and books that are required for continual reference, and a larger one will be required in the immediate future, or valuable records must be kept in an unsafe place. A suitable vault could be placed in our present quarters for a reasonable sum, thus affording protection to all our plans and records for many years. Your serious consideration is requested, and immediate action respectfully suggested providing for a new safe or vault. To your engineer a vault would seem to be the more permanent and economical investment, and unless some change in location of this office is to be made I would earnestly recommend the construction of a suitable vault. Many of our plans and records could not be replaced, and their safe storage is a serious matter.

The employés of this department for the year 1900 were: Frank W. Brown, principal assistant; Charles H. Chandler, transitman; Norman Rollins, Harry C. Hill, and William Carr, rodmen; all of whom have rendered valuable assistance in their respective stations.

To the mayor and city council, and to all city officials who have had dealings with this department, I wish to express my appreciation of their support, coöperation, and friendly relations.

The expenses of this department have been as follows:

Paid for salaries	\$2,376.13
supplies	143.24
repairs	10.25
car fares and livery	150.55

Paid for incidentals	\$9.40
coal	66.98
Total	<u>\$2,756.55</u>
Appropriation	2,756.55

W. B. HOWE,

City Engineer.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the City Council:

The trustees of the Public Library submit herewith the librarian's report as a comprehensive summary of the work of the past year. It vividly presents the points of contact between the library and the varied interests of all classes, and the stimulus contributed to self-education in many directions.

Of the \$5,000 appropriated by the city for the year 1900, the sum of \$223.09 was expended for periodicals, and \$1,189.07 in the purchase of books, of which about three fifths were new, the rest replacing worn-out copies. The remainder of the appropriation has been used for salaries, bindings, repairs, supplies, and other necessary expenses of administration, the details of which are shown in the report of the city treasurer. The cost of maintenance is about the same as of libraries of other New England cities of equal population, except in those instances where private gift has made generous provision for their support. We recommend that the city council make an appropriation of \$5,000 for the ensuing year, as that sum has been found, with the exercise of economy, reasonably adequate for the purpose.

With deep sorrow we record the death of James S. Norris, who for nearly eighteen years, as trustee of the library, was prominent in its management, and took an active and sympathetic interest in its welfare. He affected no wide knowledge of books, but appreciated their worth and admired true literary culture, and, while he was solicitous that the public funds be economically expended, always favored liberal appropriations

for the Public Library. He bore the trials of failing health with cheerful patience; indeed, the genial and simple kindness of our friend in his latter days approves the saying of the ancient moralist that "gradually declining years are among the sweetest in a man's life."

The trustees are gratified by the excellent work of the librarian and her assistants. Thoroughly business-like methods everywhere prevail, and especially to be commended is the solicitude with which the public are served and their wants anticipated.

Trustees.

Concord, January 26, 1901.

REPORT OF THE CITY LIBRARIAN FOR 1900.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN:—This has been a good year at the library. We have bought all the necessities, some luxuries, and yet not expended our appropriation. What better can an institution report? This pleasing state of things is explicable by the fact that our ambitions have been within reason, and our petty economies so numerous that funds remained for many desirable purchases. We have passed our pens and our ink on from fine work to coarse work, we have had two old chairs made into one, we have turned window shades end for end, walked on errands instead of using stamps, completed imperfect books by writing in missing pages, and hand-copied lists of books rather than hire a typewriter, all to the end that we might add to the resources of the library.

And 1,100 volumes have been added during 1900.

Of these twenty-five were new magazines bought to fill in sets.

Thirty-five were gifts.

Ninety were magazines bound to continue files.

Three hundred and twenty were duplicates of new books or clean copies of worn-out books.

Six hundred and thirty were new works.

This decided gain to the library could not have been brought about by mere economy, without the liberal appropriation made by the city for 1900, and the interest on the five bequests which have been left the library in the forty-six years of its existence.

Of the twenty-five new magazines purchased, most were early years of *St. Nicholas* and *Harper's Round Table*, than which there is no better reading for children, nor any more eagerly sought.

Of the thirty-five gifts, we are especially indebted to Mr. Henry McFarland for copies of his valuable recollections, and to Mrs. Woodbury for works in foreign languages purchased abroad by her husband, the late Rev. Augustus Woodbury, who, it should be remembered, delivered the address when the Fowler Library building was given to the city. Mr. Samuel C. Eastman continues to favor the library with the *Revue Des Deux Mondes*. This year we have had money wherewith to bind up this magazine, and fifty-three volumes attest the considerableness of Mr. Eastman's gift. A veteran librarian speaks of "the important place of this periodical in the literary history of France." "What, however," he adds, "is peculiarly interesting and useful to the student of French, is the list of writers in English translated by authors who are distinguished French novelists, notably novels by Aldrich, Eggleston, Henry Kingsley, Holmes, Ouida, and Meredith. There is no better exercise for the student of French than the translating of an English novel and the comparison of the result with the translation by a master of the French language. Students can now easily procure the volumes which contain the particular work in which they are interested.

The library owns works in eleven languages, as a linguist recently noted in the local newspaper.

The ninety volumes of magazines bound to complete our files are constantly serviceable in reference work, thanks to the indexes to periodicals now available, the one we find particularly useful being the Cumulative Index; this comes monthly, thus enabling us to look up magazine articles before the end of the year, when other indexes are wont to appear.

Three hundred and twenty volumes were bought as duplicates or clean copies. We have tried to buy from two to four of each popular novel, but we have known that it was acknowledged impossible, in any public library, to own enough copies to give one to every applicant, though that would make life as pleasant for the desk attendants as it would for the borrowers.

When one reflects on the probable feelings of three hundred people who all want three copies of "Eben Holden" at the same time, and of other hundreds who choose a story with a

taking title only to find it dull, and of the many who want to transfer a novel which from its popularity has to be labeled, *not transferrable*, and of kindred who differ as to the merits of a book, it seems as if the boy spoke better than he knew when he came in lately and asked us to give him a book of *friction* for his mother.

The rule that a demand creates a supply, meets with an exception in the case of the public and the literary sensation of the hour. But this is inevitable, for lack of shelving, if for no other reason. When the present librarian came into office, six years ago, "Trilby" seemed never in when wanted; now, our four copies of it are always on the shelf. We should not have room, even had we unlimited money, for multiple copies which would soon cease to circulate. Economy of space is getting to be a serious subject, and we would remind the citizens that in 1905 the library will be fifty years old, and respectfully ask if that would not be a good time to vote it a wing or an arm?

As over two hundred books wear out annually, a little arithmetic will prove that our printed catalogues would speedily become full of useless call-numbers, unless we bought, when possible, a new copy of each discarded book. Some old favorites go out of print, and cannot be found in all the second-hand bookstores of Boston, as the librarian knows from personal search, but it is our aim to own on shelves one of every book in our catalogues, so that a borrower may not have the trouble of putting down numbers, to no purpose.

Of the six hundred and thirty new works purchased, many will add materially to the city's resources.

Foremost is the six volume set on "Costumes," by Racinet, giving colored plates of the dress, armor, accoutrements, comparisons, and room decorations of all nations in all ages. Of this, an expert says: "There is no work on costumes in any language that will stand any comparison with Racinet; nothing at all approaching the scope of that work either in text (which is in French), or in illustrations, but in the latter respect particularly. For practical utility the library would do better to secure this, rather than to gather the various smaller works on the subject which might be found in English."

A public library has a great many calls for pictures of costumes, and we now feel ready to meet this demand.

A valuable work on "Oriental Rugs" will be useful for purposes of identification because of its colored plates.

The set known as "Famous Composers" has been brought up to date by the addition of three new volumes.

"Masterpieces of the Louvre" was a purchase made specially for the benefit of the four art clubs.

A ten volume compilation of the "World's Best Orations" will, it is hoped, be a mine for the use of prize speakers.

A four volume "Dictionary of the Bible" brings into compact form the results of the higher criticism of the last few decades.

Four more of the now rare town histories have been bought.

An international geography, and works on China and South Africa have made current events more comprehensible, and résumés of the progress of the world during the nineteenth century have just been purchased.

The increase in nature study has been looked out for by the acquisition of books on things out-of-doors; the many devotees of mushrooms can now consult the three best works on the subject.

Some new and notable biographies, such as those of Chopin, Horace Bushnell, Henry George, Phillips Brooks, Huxley, Parkman, and Martineau, fill places heretofore vacant on our shelves.

The interest on the Cogswell fund has been spent along the lines prescribed—history, geography, biography, and science. In the latter department particularly have we tried to introduce up-to-date material; for example, the only American work on automobiles.

The public doubtless supposes that its library buys works of general literature, such as Mabie's "Shakespeare," and Crawford's "Rulers of the South," but let us mention that it strives to help every department of work in the city, having a new book on "The Hygiene of Transmissible Diseases," on "Gas-lighting," "Filtration of Water Supplies," "Modern School Buildings," and even "Soap-making."

The library is for *all*. We try as earnestly to hunt up in our homes a school dictionary for the man on education's lowest round who came in and asked for a book to tell him how to read, *i. e.*, what the words he gazed at meant, as we try to stretch the Shakespeare material to go around among the ten clubs which bear his name.

As the large expenses of classifying, cataloguing, and printing attendant upon reorganizing the library were now out of the way, it became possible, this past year, to have our interior walls washed down and ceilings freshened, a noiseless cork carpet laid in the reference room, the last of Brussels remnants supplanted by rubber stripping, the broken concrete walks skimmed over, the gas-lights on the dark porches used at night, a double window put beside a cold desk, and new book-cases added to our shelving space.

The librarian wished the trustees had looked into this building one recent Sunday. The reading-room chairs were speedily filled, and all our extra ones had to be brought from the stack-room. The boys' room below was crowded, and other children had to be colonized at the catalogue table in order that the adults might keep their due share of sittings. By four o'clock it was necessary to ask readers to come behind the counter to the assistants' usual seats, and after seeing boys obligingly making one chair do for two, the librarian carried out the three chairs from her office, thus making the fullest use of present accommodations. Any enlargement of the building should contemplate doubling the size of the reading-room.

The circulation last year was 1,800 less than the year before. It would grieve us to report this, except that we can report also that fiction reading decreased two per cent., and the latter fact offsets the former. There has been an increase in the percentage of reading of magazines, history, travel, and fine arts.

There has been also more consulting of solid works by students either in our reference-room or in schoolrooms where we send armfuls of books to remain while a class pursues the subject treated of in these volumes. Mast Yard and East Concord as well as the schools in the centre district avail themselves of the privilege accorded teachers.

The past year not one book has been lost to the city. It requires strenuous effort to gather in 90,000 loaned and sub-loaned books; in each previous year there has been at least one case that baffled our pursuit, which goes on from house to house, street to street, and, if necessary, from town to town.

Six hundred and seventy-six new borrowers have registered and applied for the right to use the library.

The exhibits which come every few weeks from the Library Art Club continue to be enjoyed, and the public kindly expresses its appreciation. Indeed, the librarian would like to speak of the hearty and instant recognition, on the part of the public, of every new feature introduced for its benefit.

The semi-annual meeting of the State Library Association was held at Berlin, and the two sessions brought pleasure and profit to those present. Occasional attendance upon the meetings of the Massachusetts Library Club of four hundred members is found to be stimulating and helpful.

We would speak with gratitude of the long service rendered the library by Mr. James S. Norris; for eighteen years, on errands of business or kindness Deacon Norris came and went at the library, taking an interest which did not flag with his increasing years, and so long as the present staff serves the institution, he will be sincerely missed.

With thanks for the uniform courtesy and coöperation of all the Board of Trustees,

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

SANITARY DEPARTMENT.

REPORT OF THE BOARD OF HEALTH.

To His Honor the Mayor and the City Council:

It is a pleasure to once more record the faithful and efficient manner in which Health Officer Palmer performs his duties. Each year seems to see some new responsibility added to the health officer's work, and the past year is no exception. During this year the health officer has been made inspector of plumbing, and although he had previously done all that was done in that line, of course it now requires more time and thoroughness. At present the residence of the health officer is connected by telephone which is a matter of great convenience and a saving of time when he is wanted after office hours, as frequently happens. It seems as though this was a legitimate expense giving full return to the city for the slight additional expense.

The question of the collection of garbage, which has been urged upon the consideration of the city government in previous reports, has been met and disposed of in a fairly satisfactory manner by the passage of the following ordinance:

CITY OF CONCORD.

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED.

AN ORDINANCE RELATING TO THE REMOVAL OF GARBAGE.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. No person shall remove, or carry in, or through, any of the streets, squares, courts, lanes, avenues, or alleys within the city of Concord, any swill or house offal, animal

or vegetable, greese or bones, or any refuse substance from any dwelling houses, or other places in the city, unless such person so removing, or carrying the same, shall have been expressly licensed by the Board of Health, annually.

SECT. 2. No person shall transport fat, bones, or decayed, putrified, or vile-smelling, animal or vegetable substances within the city limits, except in water-tight, securely-covered vessels, from which no odor can escape.

SECT. 3. Any person violating any of the provisions of the two preceding sections shall be fined the sum of ten dollars for every violation thereof.

SECT. 4. This ordinance shall take effect Feb. 1st, 1901.

Passed Dec. 11, 1900.

The following are copies of the application and license blanks :

OFFICE OF THE BOARD OF HEALTH.

I, _____, a resident of _____, N. H.,
190 .
hereby apply for a license to remove swill and other house
offal in the City of Concord, and will comply with all the City
Ordinances that have been passed or that may be passed and
also the rules of the Board of Health that have been or may
be adopted before the expiration of my license.

Witness :

No.

GARBAGE LICENSE.

BOARD OF HEALTH, CONCORD, N. H.

This license is granted to _____ of _____ N. H.,
to remove swill and offal in the City of Concord, for the term
of one year from date hereof.

The conditions of this License are that the licensee shall, at
all times, comply with all City Ordinances affecting the re-
moval of swill and offal, and also shall comply with all rules
of the Board of Health in any way relating thereto.

} *Board*
 of
 Health.

Concord, N. H.,

190 .

The number of this License must be carried upon the team by the licensee at all times when engaged in this business and must be shown upon request.

CONTAGIOUS DISEASES.

The number of contagious diseases reported during the year has exceeded that of the preceding year and was due to the epidemic of measles; scarlet fever was comparatively insignificant, while diphtheria showed up more prominently. The death-rate from all the cases was very low. We feel thankful that small-pox, found in so many localities throughout the state, and almost at our very door, has not yet demanded our attention; although existing in several towns of the county and in other cities and towns in frequent intercourse with us, not a case has been reported to us. It would not have surprised us at any time to have had one discovered, nor would it have found us unprepared. Anticipating such an occurrence, the reception hospital was in readiness, and nurses provisionally engaged, so without any delay, proper care and attention were assured.

At a meeting held June 9, the following circular was mailed to the local physicians:

DEAR DOCTOR:—Owing to the prevalence of small-pox in so many different localities, and especially bearing in mind the cases in our neighboring city of Manchester, we would respectfully suggest to you the necessity of reporting to us immediately any suspicious case of eruptive disease where there is any doubt of its exact nature.

At the same time we would recommend to you the importance of advising your patients of the efficacy of vaccination as a preventive of this dread disease.

D. E. SULLIVAN, M. D.,

President Board of Health.

Our children are quite generally vaccinated owing to the full observance of the law pertaining to vaccination and attendance at school, and a large proportion of adults are likewise protected; hence in all probability this disease will never gain a strong foothold in Concord while such precautions are taken.

Some cases of scarlet fever having been returned by householders as measles, it was decided in January not to accept the diagnosis of any disease placarded by this board without an endorsement of a physician; so in cases where the family will not pay a physician for this one visit the board assumes the expense, thereby cutting off one of the many avenues through which these diseases travel.

TUBERCULOSIS.

Tuberculosis that annually finds so many victims throughout the state is gradually but surely yielding to the general dissemination of intelligent information furnished the public, and while compulsory reporting of cases has not been demanded yet no opportunity has been neglected to educate the people to the recognition of this as a communicable disease, and its prevention by wholesome, precautionary measures. We endeavor to have all houses when vacated by consumptives fumigated by the sanitary officer and direction given landlords for their further proper care, and on receipt of a death certificate assigning pulmonary consumption (tuberculosis) as the cause of death, the rooms occupied by the deceased are fumigated under our supervision. Thus are practical demonstrations given of the dangers lurking in and around such diseased subjects, and the beneficial results must be as great, if not greater, than from the superficial care afforded by reports to this office.

Much good has been done through the operation of the state law of 1899, granting aid to those in quarantine and of its worth too much cannot be said. By a judicious expenditure here and there, the sick have been made comfortable and assured of competent medical care and nursing, necessities provided, the temptation to evade restriction obviated, and a more ready compliance with regulations secured, reducing the dangers of spreading the disease to a minimum, health more quickly restored, and may be life itself spared, and a most healthful respect for all sanitary laws fostered by the humane workings of this one.

During part of the year our bacteriological work was done at the Massachusetts Laboratory, Brookline, Mass., but owing

to delays in receiving returns from cultures a change had to be made, and early in November the services of Dr. A. K. Day were again secured. The services of both were satisfactory and reliable and have been of decided advantage in this part of our work.

During the fall an investigation prompted by a series of sore throats in the pupils of the Chandler school, disclosed a condition of things not compatible with the best interests of all concerned, and at a meeting held Oct. 24, the following letter was ordered sent to the Board of Education :

As a result of an investigation made this day we find the system of plumbing in the Chandler school building is antiquated and unsanitary. We notify you that such changes must be made at once as will place the same in good sanitary condition.

RUSSELL WILKINS,
Secretary Board of Health.

As six cases of diphtheria were reported from pupils attending this school, an epidemic threatened and plumbing unchanged, the school was ordered closed at a special meeting Nov. 26, and remained closed until an entirely new system of modern plumbing was installed.

The sanitary arrangements in some of the other schools are the same as previously existed in this one and should be changed without delay ; assurances have been given by the Board of Education that at the annual school meeting next March an appropriation sufficient to remedy this evil will be asked.

The adoption of certain ordinances regulating the plumbing and providing for its inspection has at length satisfied the wishes we have so often expressed, and during the short time the law has been in effect its workings have been very satisfactory and productive of much good. The high standard of sanitary requirements attained by an honest enforcement of this law without loss to anyone will as time goes on receive the hearty commendation of all. It works hardships to none, protection and guarantee of safety to all.

INSPECTOR OF MILK.

There is no article of food so universally used as milk, and it behooves us to see that it is kept pure and unadulterated. The standard of milk as dispensed here may be as high as any but there is no proof of it while there are some reasons for believing an inspector might reveal many things of great importance to the consumer. All classes and grades are at the mercy of the milk vender—from the innocent babe, whose entire dietary it comprises, through every age and condition, youth and old age, sick and well. The need of frequent examinations of cows, their surroundings and milk, that a pure product may be guaranteed, is self-evident. Should a state laboratory be established the coming year as is expected, an opportunity may here be presented to have tests made; if this be not available, it is hoped your honorable body will seriously consider the feasibility of having an inspector appointed as the state law provides.

On all sides the world over are to-day seen abundant evidences of a sincere desire to improve the general sanitary condition; this applies alike to principal streets and obscure alleys, public buildings and private residences, drinking water and sewage systems, and the many varied subjects rounding out all that is comprised in sanitation.

Too much honest attention cannot be given to the study of hygiene as the health and happiness of the citizens and consequently the prosperity and stability of the city itself depend upon an intelligent oversight of these interests. People must be educated to the importance of recognizing the rights of others in matters pertaining to the welfare of the community at large, and must give a ready coöperation in necessary reforms even if at the time there is a feeling of injustice.

The growth and material advancement of our city must look largely to a wholesome observance of all that relates to sanitary science of the new century.

Respectfully submitted,

D. E. SULLIVAN, M. D.

RUSSELL WILKINS, M. D.

E. A. CLARK, M. D.

During the past year Edward N. Pearson has resigned as a member of the board, and Dr. E. A. Clark was elected to fill the unexpired term. Mr. Pearson has been a very valuable member of the board since its reorganization in 1887, and has given much time, thought, and labor to the sanitary welfare of the city. Wise, conservative, and of excellent judgment he quickly won and has always retained the confidence and respect of the other members of the board.

It can safely be said, with disparagement to none, that it will be a long time before another layman can be found who will have such a true appreciation of the responsibilities of sanitary work and such nice judgment in the exercise of necessary measures. While we can only regret his retirement, we know he will ever retain an active interest in the work and shall look to him for counsel and advice in the future.

REPORT OF THE SANITARY OFFICER.

To the Board of Health :

GENTLEMEN :—I have the honor to submit to you the following report of the work done by me as sanitary officer, including tables of the vital statistics for the year ending December 31, 1900.

The general health of the city is good, and compares favorably with that of former years, also with other cities and towns in the state. The total number of deaths during the year was 393. This includes all who died at public institutions coming here for treatment, and are eliminated from the death-rate.

CONTAGIOUS DISEASES.

There have been reported to this office during the year, 562 cases of contagious diseases, comprising scarlet fever, diphtheria, typhoid fever, and measles, classified as follows :

MONTHS.	Diphtheria.		Scarlet fever.		Typhoid fever.		Measles.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
January	1	14	21
February.....	5	7	29
March	6	29

Measles	20	4	6	57	48	116	158	55	12	476

COMPARATIVE TABLE.

The following table contains the number of cases of contagious diseases and the deaths resulting therefrom, for the years since and including 1890:

YEARS.	Diphtheria.		Scarlet fever.		Typhoid fever.		Measles.		Totals.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
1890	6	2	9	17	5	6	38	7
1891	12	3	7	14	6	2	35	9
1892	13	3	37	3	7	1	2	59	7
1893	48	41	13	300	402
1894	17	3	113	6	13	3	21	164	12
1895	55	8	4	15	5	452	526	13
1896	38	8	44	8	21	3	158	261	19
1897	13	1	22	1	17	2	138	190	4
1898	4	8	8	4	120	146	4
1899	9	5	99	1	14	1	299	421	7
1900	29	5	39	18	1	476	1	562	7

MEASLES.

This disease was epidemic in the early part of the year and the number of cases continued large until the summer vacation, when it began to decrease. The total number of cases reported was 476. That measles are infectious in the earliest stages and that many children attend school when ill, make

it more difficult to check its spread. The rule adopted by the Board of Health requiring all cases reported to be examined by a physician, has been fully complied with.

DIPHTHERIA.

There was an increase of 20 cases over 1899 with five deaths, being the same number of deaths as occurred in the nine cases of 1899. Most of the cases were of a mild type. Bacteriological tests have been made in the diagnosis and releasing of all cases.

SCARLET FEVER.

There were thirty-nine cases reported to this office with no deaths, as compared with ninety-nine cases in 1899 with one death.

TYPHOID FEVER.

Of the eighteen cases of this disease reported one proved fatal. Six cases developed in one family in East Concord and an analysis of the well water proved it to be contaminated with sewage.

DISINFECTION.

The same method has been employed as in the previous year. Three hundred and twenty-seven rooms have been disinfected by formaldehyde gas; in addition, school and library books have been cared for, also hacks used at funerals of persons dying of contagious diseases. The many reports of Boards of Health from all parts of the country testify to the fact that formaldehyde gas is the best of all methods for disinfecting infected houses and their contents.

NUISANCES, COMPLAINTS, AND INSPECTIONS.

A statement of the number and character of the nuisances which have been abated by this department during the year appears below :

Accumulation of decayed fruit, and coal ashes	76
Bad sink drainage	29
Broken sewer traps	36
Catch basins not trapped	34
Dead animals	37

Decayed meat and fish	8
Defect in house sewer	20
Dumping rubbish	18
Dropping manure in the streets	8
Defective plumbing	32
Filthy stables	9
Filthy cellars	16
Filthy swill barrels	8
Filthy yards	21
Filthy alleyways	7
Foul and offensive cesspools	11
Keeping hogs	6
Keeping hens	16
Offensive manure heaps	23
Offensive privy vaults	29
Odor arising from water	7
Offensive odor in house	29
Offensive odor from stables	15
Privy vaults full	31
Private sewers obstructed	17
Sinks found without traps	12
Sewer gas in house	4
Sewerage backed into cellars	2
Stagnant water in vacant lots	1
Street sewers obstructed	6
Sewers not properly ventilated	12
Slaughter houses	1
Surface sink drains	2
Throwing swill in alleyways	5
Throwing ashes in street	16
Throwing slops in street	3
Water closets without water supply	6
Water sent for analysis	12
Milk sent for analysis	2
Water closets foul and offensive	13
Water closets not ventilated	26
Water closets out of repair	23
Water in cellars	15
Total	<u>704</u>

HOUSE INSPECTION.

House inspection has been continued as time would permit. The following table will give the amount of work done in this direction :

Dwelling houses inspected	178
Tenement houses inspected	234
Stores inspected	13
Stables inspected	19
Meat and fish markets inspected	7
Schoolhouses inspected	14
Business blocks inspected	11
Alleyways inspected	16
Inspection of Penacook lake	5
Inspection of reservoir	3
Total	<hr/> 500

INSPECTION OF PLUMBING.

In submitting the report from July 10, 1900, to January 1, 1901, I desire to say that harmony prevails throughout, and the plumbers, both masters and journeymen, are carrying out the plumbing ordinances in a very fine spirit, realizing that the plumbing laws are working no hardships on them as a class and, with myself, are trying to avoid friction. I will also say that the owners of old buildings give ready compliance to have the plumbing changed when requested to do so, thereby showing their appreciation of the sanitary measures of this city.

The number of inspections made will be found in the table herewith annexed :

Plumbing permits granted	104
Water closets put in	127
Bath tubs put in	46
Urinals put in	14
Wash trays put in	9
Sinks put in	75
Wash bowls put in	56
Number sewers put in	81

Total number of inspections of plumbing 418.

SUMMARY.

Houses placarded in cases of contagious diseases	544
Placards removed	541
Visits made to contagious diseases	1,353
Rooms fumigated	327
Pieces of bedding and clothing burned	31
Library and school books fumigated	67
Burial permits issued	393
Burial permits issued to non-residents	85
Transfer permits issued	117
Number of reports of contagious diseases sent to state board of health	50
Number of reports of contagious diseases sent to U. S. Marine Hospital Service, Washington, D. C.	52
Number of monthly mortuary reports sent in exchange to other cities	1,200
Number of certificates issued for children to return to school	241

EXPENSES OF THE HEALTH DEPARTMENT.

Salary of sanitary officer	\$894.47
Salary of board of health	75.00
Bacteriological tests	169.41
Care of pest-house	7.25
Incidentals	174.44
Total	<u>\$1,320.57</u>

A table appended exhibits the mortuary statistics for the year 1900.

In conclusion I desire to express my thanks to the mayor, members of the city council, and Board of Health for their uniform courtesy and support in everything beneficial to the well being of our citizens.

Respectfully submitted,

CHARLES E. PALMER,

Sanitary Officer.

[illegible]

CHARLES E. PALMER, *Sanitary Officer.*

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and City Council:

I have the honor to submit the following report of the Fire Department for the year 1900:

The precinct department responded to forty-two (42) box alarms and seventy-eight (78) still alarms.

In addition to these, seven (7) fires occurred for which no alarms were given, accounts of which are given in the order of their occurrence.

At Penacook fourteen (14) alarms were responded to; at East Concord one (1); and at West Concord eight (8).

Two fires occurred at West Concord for which no alarms were given.

	Bell alarms.	Still alarms.	No. alarms.
Precinct,	42	78	7-127
Penacook,	7	7	14
East Concord,	1		1
West Concord,	7	1	2-10
Total,			152

ALARMS.

STILL. January 6, 8:13 a. m. Chimney fire in residence, 17 School street, owned and occupied by Lowell Eastman. Extinguished by Chemical company.

APPARATUS AND FORCE.

The apparatus and force of the department is as follows :

Precinct, located at the Central fire station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Governor Hill," relief steamer, in charge of an engineer and fireman; one double 60-gallon tank Holloway chemical engine in charge of two permanent men; one ladder truck, "City of Concord," attached to hook and ladder company (21 men). There are ten horses owned by the city kept at this station. The precinct companies have swing harnesses upon all apparatus except steamers. There are six permanent men located at the Central station and one permanent man at each hose house within the precinct.

The Alert Hose company (11 men), located on Washington street, has a modern hose wagon with permanent man and horse.

The Good Will Hose company (11 men), located on the corner of Concord and South State streets, has a modern hose wagon with permanent man and horse.

Veterans' Auxiliary company (30 men).

The "Pioneer" steamer, at Penacook (28 men), is a fourth-class Silsby, with hose wagon.

The Cataract company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand-engine and a modern hose wagon, and provided with swing harness.

Old Fort, East Concord (30 men), has a 4½-inch cylinder Hunneman hand-engine.

6. Orchard street, corner of Pine street*	4,000
7. School street, corner of Summit street*	3,500

Although the number of fires occurring during the year exceeds all previous records, in but few cases have the losses been large.

The year has been one of extraordinary expense.

Among the unfavorable conditions which the department has contended against may be mentioned the horse epidemic, brush fires, purchase of horses, and the unusual amount of repairing required to keep the apparatus in proper condition.

Three horses were purchased during the year.

*Brick cemented.

The purchase of five hundred feet of paragon hose, two hundred feet of one-inch rubber hose for the chemical engine, ten feet of suction hose for the Eagle steamer, and the relining of seventeen hundred feet of old hose was expensive, but necessary.

The Kearsarge steamer has been provided with new wheels.

The wheels of the Eagle steamer, Eagle hose wagon, supply wagon, and reserve reel have been repaired.

The Governor Hill steamer has been repaired and new runners have been provided for the supply sleigh.

Large portions of the floors of the apparatus rooms at the Central station have been renewed.

The fire alarm telegraph system has also required attention and expenditure.

Twenty-four new poles have been set to replace old ones, and new wire has been substituted for old wherever found necessary.

The non-interference armatures in the fire alarm boxes first purchased by the city are unreliable and said boxes should be converted into Gardiner boxes without delay.

Five hundred feet of two and one-half inch hose should be purchased during the coming year.

The "Water Carnival" held in this city in September last made recommending the Eastman outfits unnecessary.

It illustrated forcibly what could be done with the magnificent water service in the business section were the tools to do with at the disposal of the department.

In the interest of economy the heating apparatus at the Good Will house should be changed, the consumption of fuel under present conditions being abnormal.

By referring to the report of this department for the year 1898, it will be seen that the needs of the department, while not numerous, are expensive, and, as stated at that time, it is not to be expected that they can all be remedied during any one year.

During the month of October I had the honor to attend, as a delegate, the convention of the International Association of Fire Engineers held at Charleston, S. C.

The convention was all that could have been desired from an educational point of view, a report of which was rendered at that time.

In conclusion, I wish to assure your honorable body that it has been the aim of the committee and the undersigned to administer the affairs of this department with strict economy.

Respectfully submitted,

W. C. GREEN,

Chief Engineer.

REGULATIONS OF CONCORD FIRE DEPARTMENT.

CITY OF CONCORD.

IN THE YEAR OF OUR LORD ONE THOUSAND EIGHT
HUNDRED AND NINETY-FOUR.

AN ORDINANCE in amendment of all sections in Chapter 18 of
the revised ordinances relating to the fire department.

*Be it Ordained by the City Council of the City of Concord
as follows:*

SECTION 1. The fire department will consist of a chief engineer, two assistants within the precinct, and one engineer each from Ward 1, Ward 2, and Ward 3. Two steamer and hose companies, to consist of thirteen men, including driver; one relief steamer to consist of two men; two hose companies to consist of eleven men, to include a driver; a chemical engine company to consist of two men; and a hook and ladder company to consist of twenty-one men, to include a driver; steamer Pioneer, not less than twenty nor more than forty men; hand-engine companies, No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire wards, and those within the precinct to constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers, and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places otherwise vacated. The mayor, for cause assigned by him, and after due hearing by him, may, with the approval of a majority of the board of aldermen, at any time remove from office or place the chief engineer, any assistant engineer, and officer or member of the department. In case of vacancies from any cause in the department, of officers or

men connected in any manner with the fire service, such vacancies shall be immediately filled by the appointment and confirmation of the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to the use of said house, rent free, the sum of ten hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order, and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses, and other houses belonging to the city and used for the department and by the companies thereto attached as often as once a week, and whenever directed to do so by the mayor. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually in the month of December a statement of the receipts and expenditures of his department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other apparatus require repairs he shall cause the same to be made under the direction of the committee on fire department, and as far as practicable shall examine into the location and condition of fire apparatus belonging to the corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by

fire which may happen within the city, with the cause thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants and shall make returns as required by the Laws of 1889, Chapter 84, and entitled: "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct, or neglect of duty. said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank who may be present shall have the powers and perform the duties of the chief engineer, and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company, within one day after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls of record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon to do so.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in discharge of his duties, and act as clerk of the company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies will act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company to have its engine, hose, and other apparatus cleaned, washed, oiled, reeled, and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foremen may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay-rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies will forward their pay-rolls to the board of engineers for approval, and after the action of said engineers and the sanction of the mayor and aldermen, said pay-rolls shall be passed over to the city collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any firemen, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers to take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, school houses, and asylums, once in each six months, and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of the officer in command at the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of temporary absence or sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer,

and each member to the foreman of his company. Absence of more than twenty-four hours shall not be considered temporary, and he should get permission from the chief engineer to allow a substitute with pay from such absentee.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which expense three hundred dollars can be expended annually. The companies in Wards 1, 2, and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding, and safe keeping of fires, and for the removing of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the

department as may be deemed proper, and subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of either of the several companies shall wilfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on fire department have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department.

SECT. 24. Permanent officers and men of the department shall be entitled to vacation without loss of pay, not exceeding fourteen days in each year, to be granted under direction of the chief engineer.

SECT. 25. The joint standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department must

receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central fire station, and all communications to the city government from the fire department must come through said committee, and in the month of December in each year, in connection with the chief engineer, they shall make such recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers shall be fined five dollars; and in the absence of firemen at fires from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, ten hundred and fifty dollars per annum and house rent; permanent force at Central fire station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert Hose houses, six hundred dollars each, per annum, paid monthly; assistant engineers, one hundred and twenty-five dollars each within the precinct; engineers of steamers, one hundred and fifteen dollars each; members of steamer, hose, and hook and ladder companies, within the precinct, eighty dollars per annum, except foremen and assistant foremen, who shall receive ninety and eighty-five dollars, respectively; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer company, No. 3, five hundred dollars, said sums to be divided among the members as each company shall direct; assistant engineer at Penacook, twenty-five dollars; assistant engineer at East Concord, fifteen dollars, and at West Concord, twenty dollars.

SECT. 28. The several engineers residing in Wards 1, 2, and 3 shall have entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards,

respectively, to whom all applications for the use of the halls, or any other part of such building, shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 29. Stewards for the Pioneer Steamer company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed for them in that capacity the following sums: For Pioneer Steamer company, thirty dollars per annum, and, when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for stewards of engine companies Nos. 2 and 3, each fifteen dollars per annum. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department, and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 30. The drivers and horses of the chemical engine and one hose wagon shall at all times be on duty at the Central fire station to attend to all fire-alarm calls, and shall do such other work in connection with the station and apparatus as the chief engineer may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, will have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse

and wagon, to be maintained by the city, for his use at all times.

SECT. 31. The chief engineer shall, under the direction of the committee on fire department, keep such other horses and men subject to labor under the commissioner of highways as are not by ordinance detailed for permanent duty at the Central fire station.

SECT. 32. On or after the passage of the foregoing ordinance, at any meeting, the board of mayor and aldermen can declare vacancies to suit the outlined changes in the department and make such appointments as will conform to the terms of this ordinance.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect after action is taken as contemplated in section 32 of this ordinance.

Passed November 13, 1894.

ADDITIONAL REGULATIONS

APPROVED BY BOARD OF MAYOR AND ALDERMEN,
DECEMBER 29, 1894.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attacking to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be

excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. Each company shall be allowed three substitutes, to be approved by the chief engineer.

ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Foremen will be held responsible for all lack of promptness and efficiency in their commands.

FIRE-ALARM TELEGRAPH.

NUMBER AND LOCATION OF FIRE-ALARM BOXES.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz. :

DISTRICT 1. Embraces that section of the city north and west of Washington street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 AND 5. Embrace all south of Pleasant street. The first figure of the box number will indicate the district.

DISTRICT NO. 1.

9. New Hampshire state prison.
12. Curtice avenue.
13. Franklin and Rumford.
14. Bradley and Walker.

- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose house.
- 18. C. S. Gale's store.
- 19. Centre and Auburn.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.
- 28. School and Spring.

DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central fire station.
- 35. Martin's drug store.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.
- 38. Orchard and Merrimack.

DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose house.
- 43. Main and Fayette.
- 45. Nelson & Durrell's store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.
- 412. Wall and Elm.
- 413. Main, opposite Thorndike.

DISTRICT No. 5.

- 51. B. & M. R. R. new shops.
- 52. South Main and Allison.
- 53. Hall and Hammond.

- 54. Broadway and Pillsbury.
- 56. St. Paul's School.

PRIVATE BOXES.

- 5. Boston & Maine Railroad—north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire Asylum for the Insane.
- 8. Page Belting Company.
- 31. Boston & Maine Railroad coal sheds.
- 33. State house.
- 55. Boston & Maine Railroad old repair shop.

In addition to the above private boxes there are three located inside the state prison, all numbered 9.

FIRE-ALARM SIGNALS.

1. Alarms rung in from boxes 31, 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 51, 52, 53, 54, 55, and 56 will not be responded to by the Alert Hose company until signaled. The signal to proceed to the fire will be a second alarm, except 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 32, 37, and 56 will not be responded to by the Good Will Hose company until signaled. It will be governed by the same signals governing Alert Hose company. The Alert Hose and Good Will Hose companies will hitch up and remain in readiness twenty minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal (all out or second alarm), the officers in charge shall dismiss their companies.

Kearsarge Hose company will respond to all calls.

Kearsarge steamer to all calls except 51.

Eagle Hose company to all calls.

Eagle steamer to boxes 5, 6, and 7, on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, 45, and 413 on second; to all others on third, except 9 and 56.

Governor Hill steamer will respond to boxes 8 and 9 on first alarm; to boxes 5, 6, 7, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 31, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 52, 54, and 55 on second; to all others on third.

Chemical engine will respond to all box alarms except 8, 9, 56, and 51.

Veterans' Auxiliary company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of eleven strokes of the bells will signalize the requirement of assistance out of town, and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, the box alarm 34 (Central station) will follow.

All out signal, three strokes of the bells.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells.

MILITARY SIGNAL.

Two rounds of 3—1—2.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4:30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be struck from the button of a box, alternating as before mentioned.

SCHOOL SIGNALS FOR CLOSING.

Two strokes of the bell given three times, with a pause of fifteen seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock.

The signal to close for the afternoon session will be given at 1:15 o'clock.

The signals to close all schools for one session will be given at 11:30 a. m.

THE FIRE-ALARM TELEGRAPH

is the "Gamewell" patent. It embraces 38 miles of wire.

On the lines are 37 fire-alarm boxes belonging to the city, and 10 private boxes,—in all 47. There are three alarm bells, one of 3,724 pounds (bell-metal), one of 3,740 pounds (bell-metal), and one of 2,000 pounds (American steel). There are also 15 mechanical tappers, 36 direct-action tappers, one four-circuit repeater, and four indicators.

The battery consists of 220 storage battery cells for the lines, and 34 open circuit battery cells for other electrical purposes.

The alarm system was installed in 1880 by the Gamewell Fire-Alarm Telegraph Company.

DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted, the instant you open the door.

Open the box, and, if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard it would indicate that another box had been pulled and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until twenty seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go.

Should there be no response, pull it again.

Then, should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

The organization of the police department at the present time is as follows :

POLICE COMMISSIONERS.

Josiah E. Dwight,	Giles Wheeler,	Myron J. Pratt.
G. Scott Locke, city marshal	Appointed June	30, 1888
James E. Rand, assistant marshal	" April	16, 1861
Daniel S. Flanders, captain night watch	" Jan.	26, 1889

REGULAR POLICE AND NIGHT WATCHMEN.

Fred M. Eaton,	Appointed Sept.	9, 1890
Whitney D. Barrett, Penacook,	" Jan.	24, 1893
James Kelley, Penacook,	" March	23, 1893
Charles W. Hall,	" April	3, 1894
Charles H. Rowe,	" Dec.	10, 1895
John G. Putnam,	" May	11, 1897
Samuel L. Batchelder,	" Dec.	21, 1897
Hoyt Robinson,	" March	28, 1900

SPECIAL RESERVE OFFICERS.

George H. Silsby, captain.

John T. Batchelder,	Thomas P. Davis,
O. H. Bean,	Irving B. Robinson,
Willie A. Little,	Charles E. Kelley,
W. A. Flanders,	Rufus C. Boynton,
George W. Chesley,	James Jepson,
W. H. H. Patch,	Christopher T. Wallace,
Alvin H. Urann,	Fred C. Coates,
Harvey H. Oakes,	Oliver J. Raymond,

George N. Fellows.

I will renew my recommendation for a stable suitable for a horse, wagon, and ambulance. It can be built after the same architectural design as the police station for \$1,000.

The police signal service has proved to be very useful and satisfactory. The number of duty calls that have been rung in by police officers during the past year is 29,300, besides a large number of emergency calls.

On account of the increased business at the south end there is a demand for an additional night officer, only one night officer being on duty south of Pleasant street at the present time. There is also a demand for an officer at the west end and at Fosterville, and I would most respectfully recommend that provision be made for the appointment of these additional police officers.

In submitting my report, I desire to express my gratitude to the board of police commissioners and the city council for their considerate treatment of this department. Thanks are due Harry G. Sargent, city solicitor, for valuable assistance rendered. To all who have contributed to our success we extend our thanks. To the members of the force my grateful acknowledgment and thanks are tendered for their efficiency and promptness in the discharge of their duties.

Respectfully submitted,

G. SCOTT LOCKE,

City Marshal.

REPORT OF CLERK OF POLICE COURT.

To the City Council:

I herewith respectfully submit my annual report as clerk of the police court for the year ending December 31, 1900:

Number of civil cases entered, 110.

Received entry fees in civil cases \$55.00

Paid city treasurer \$55.00

Respectfully submitted,

HARRY R. HOOD,

Clerk of Police Court.

REPORT OF CITY PHYSICIAN.

To His Honor the Mayor and the City Council:

I have the honor to submit the following report for my department for the year ending December 31, 1900:

Number examined for insanity,	5
“ office consultations,	30
“ calls made,	68
“ vaccinations school children,	92

Respectfully submitted,

C. H. COOK,

City Physician.

REPORT OF THE CITY SOLICITOR.

To the City Council:

The case of Edward Rhobidas against the city of Concord, pending at the time of my last annual report, was settled by the payment of \$2,500 to the plaintiff. The case was set down for trial in May at Laconia, and counsel on both sides and the witnesses went to Laconia to commence the trial. Before the jury were drawn, the plaintiff's counsel notified me, as counsel for the city, that they would accept the sum of \$2,500 which I had caused to be offered them some time previously. As I was satisfied that it was for the interest of the city to settle the case for this amount rather than take the risk involved in a jury trial, I settled the case on the above terms, having been previously authorized by the Water Board to make such settlement. I am satisfied that the settlement was for the best interest of the city, in view of the fact that the supreme court at the law term in March, 1900, had decided the legal questions involved in the case, against the city.

The suits of Bertha E. Braley, Edward E. Hodgdon and Mary J. Gay, William H. Gay and Walter C. Gay against the city, which were pending at the date of my last annual report, are still pending. For reasons stated in my former report, no action has been taken. The cases will now be settled or tried.

The suit of Elvira B. Lane against the city for alleged damages to a tract of land caused by dumping rubbish upon a lot adjoining her premises was tried before the jury at the April term, 1900, of the supreme court for Merrimack county. A verdict was rendered in favor of the city. Counsel for Mrs. Lane filed exceptions which have been transferred to the

law term. The questions of law raised by these exceptions were argued by counsel for Mrs. Lane and by the solicitor for the city at the December law term, 1900. A decision will probably be rendered in March next. Unless the supreme court shall decide that the trial judge was wrong in some of the rulings made at the trial, the verdict in favor of the city will stand.

During the year an unusual amount of criminal complaints and warrants have been made in the office of the solicitor. It seems to me that most of these complaints could and should be made by the officers at the police station, as is the practice in most other cities.

The solicitor has given advice and assistance to the different members of the city councils and to the different departments as usual.

Respectfully submitted,

HARRY G. SARGENT,
Solicitor.

December 31, 1900.

REPORT OF COLLECTOR OF TAXES.

To the City Council :

I herewith submit the report of collection of taxes to the close of business, December 31, 1900 :

	<hr/>	2,867 4-16
Expenses of agency	\$1,686.50	
Paid city treasurer	9,811.60	
Bill, Margaret Pillsbury hospital . .	16.40	
	<hr/>	\$9,828.00

Respectfully submitted,

BENJAMIN F. TUCKER,

Liquor Agent.

PUBLIC PARKS.

REPORT OF PARK COMMISSIONERS.

To the City Council:

The report of the park commissioners is submitted herewith :

Appropriations for the year 1900 were allowed your commissioners as follows :

For White park	\$2,250.00
Rollins park	400.00
Penacook park	100.00
Bradley park	40.00
Ridge Avenue park	100.00

At White park the regular force has consisted of the superintendent and one man. An extra force was put on to grade the playground, which was carried as far as the material in hand would allow. It was soon exhausted, and as no funds were available to purchase material the work was stopped. The use of a horse at various times has been had, and an extra man during periods of cleaning up. Thus, it will be seen that the year has been one of maintenance largely. So much might be accomplished that it seems retroactive in that no new work can be carried out.

A swan has been purchased to replace one that died ; also, ducks of different variety have been added. It might not be out of place to put some interesting animals in a restricted part of the park, but such attractions always entail much care and expense.

It is evident that some more policing should be established. After the employés have left, some one should be detailed in the park during the evening to preserve order and prevent destruction.

The trees and shrubs are developing rapidly, and we have some rare specimens. It is suggested that the different trees and shrubs be labeled with their botanical and common names. The commissioners hope to place in this enclosure from year to year hardy trees and shrubs in many varieties which are not natives.

The expenditures have been: For labor, \$1,605.55; team and loam, \$278.27; trees and shrubs, \$18.60; tools, \$18.90; lumber, \$49.89; police, \$40; swan, \$30; settees, \$71.50; incidentals, \$80.78; a total of \$2,193.49.

The same conditions exist at Rollins park as last year. No new work has been attempted. The commissioners hoped to make a beginning on plans which are already in hand to develop this beautiful spot, but funds were not available.

Propositions were made to lay out the road on the west side but did not materialize, and nothing was done to the new purchase.

The expenditures have been as follows: Pay-roll, \$335.32; team, \$11.50; tools, \$16.40; incidentals, \$21.82; a total of \$385.04.

Bradley park has been kept in good condition by the appropriation, and a few settees bought for use next year.

Expenditures have been as follows: Pay-roll, \$24.52; water, \$4; settees, \$11; a total of \$39.52.

The appropriation has been exceeded at Penacook park, owing partially to extraordinary expenses occasioned by the band concerts at the park.

Expenditures are as follows: Pay-roll, \$87.52; lumber, \$16.44; incidentals, \$7.20; a total of \$111.16.

There has been expended on Ridge Avenue park, for labor, loam, and grass seed, the sum of \$89.82, for which \$100 was appropriated.

Owing to the dry weather and the lack of water, the results were not satisfactory, but that can be obviated by putting in a hydrant for watering purposes, and also planting some ornamental shrubs.

The park system in general must of necessity remain at a standstill under the circumstances. The appropriations made

in recent years have been hardly sufficient to maintain them, so that, in order to do progressive work, the commissioners must be entrusted with a larger sum of money.

The commissioners would like to improve the various tracts belonging to the city ; frequent requests are made, and the beauty of the city would be enhanced by so doing.

To one who takes notice of our thoroughfares, it will be found that the trees are being taken out year by year for various causes, and none are planted in their places. It would be a wise forethought if the city would make a small appropriation each year for this purpose, not only for replacing trees, but for new work, placing the same under the direction of this board or of the street commissioners. These matters are neglected simply because it is no one's business.

It is interesting to see, especially in our narrower streets, the disappearance of unsightly fences, and more and more, as these are displaced by good lawns and attractive shrubbery, the advantage will be evident. We hope the good work will go on.

Beginnings are being made in the outlying wards for local improvements, noticeably at Penacook. In Washington square, a grass plot has been made, and other features are contemplated. The same idea might be carried out in the villages of West Concord and East Concord, which would stimulate local pride and multiply the attractiveness of these localities. The superintendent or members of the board would be glad to aid in this matter as they are able.

Respectfully submitted,

NATHANIEL E. MARTIN, *Chairman*,

WILLIAM P. FISKE,

Park Commissioners.

BOARD OF EXAMINERS OF PLUMBERS.

To the City Council:

The first report of the board of examiners of plumbers is herewith submitted for your consideration. This report covers the period from its organization to December 31, 1900.

The board is made up as follows: Dr. D. E. Sullivan, chairman of the board of health; W. B. Howe, city engineer, and Patrick A. Clifford, a journeyman plumber, appointed by the mayor for a term of one year.

The meeting March 29th, 1900, resulted in the following organization: D. E. Sullivan, M. D., chairman, and W. B. Howe, C. E., clerk.

A set of rules for the guidance of the board was adopted and is attached to this report. Blank certificates and licenses, together with application blanks and the necessary books for registration and records, were procured, and the registration book prepared for immediate use. Notices of the readiness of the board for the registration of all plumbers were published in the local papers.

Upon an examination of the rules adopted, you will notice that they are practically the same as those adopted by the Manchester, N. H., board. This seemed to your board to be a move in the right direction, so that examinations might be more nearly uniform in the state; a license issued by any examining board being good throughout the state.

All applicants for a license are required to pass an examination consisting of a written, oral, and practical test of their fitness for the work, and must receive not less than 70 per cent. in each branch for a master plumber's license; not less than 70 per cent. in the practical, 40 per cent. in the written, and 50 per cent. in the oral examination for a journeyman's license; but no license is issued if the average falls below 70 per cent.

The board have held nine regular meetings and such special meetings as were required to complete the business before them, the special meetings being fifteen in number.

There are serious defects in the ordinance creating this board, and it should be taken up and revised to comply with the state law.

Your examiners would respectfully suggest that the necessary appliances be secured, and some suitable place arranged for the practical work to be done in, so that we will not have to intrude upon the workshop of any local plumber. We would recommend that the sum of \$100 be appropriated for this purpose.

The following is a list of all registered plumbers, given in the order in which they appear on the register :

MASTER PLUMBERS.

W. Arthur Bean, registered and certificate issued.
Seth R. Hood, registered and certificate issued.
William A. Lee, registered and certificate issued.
Benjamin H. Orr, registered and certificate issued.
Richard J. Lee, registered and certificate issued.
Angus McInnis, registered and certificate issued.
George A. Harwood, registered and certificate issued.
Michael J. Lee, registered and certificate issued.
Albert S. Trask, registered and certificate issued.
Edward H. Randall, registered and certificate issued.
Daniel Haslam, registered and certificate issued.
Frederick Booth, registered and certificate issued.
G. Arthur Nichols, examined and license issued.

EMPLOYING PLUMBERS.

George S. Milton, registered and certificate issued.
M. E. Clifford, registered and certificate issued.
Isaac Baty, registered and certificate issued.
Charles M. Downes, registered and certificate issued.

JOURNEYMEN PLUMBERS.

William S. Dutton, registered and certificate issued.
George N. Berry, registered and certificate issued.

Charles H. Berry, registered and certificate issued.
Henry P. Cilley, registered and certificate issued.
Timothy Kenna, registered and certificate issued.
John J. Gurley, registered and certificate issued.
Thomas Mathews, registered and certificate issued.
Philip King, registered and certificate issued.
William L. Reagan, registered and certificate issued.
William H. McGuire, registered and certificate issued.
Harry H. Kennedy, registered and certificate issued.
P. H. D. Leary, registered and certificate issued.
Edward M. Batchelder, registered and certificate issued.
Patrick A. Clifford, registered and certificate issued.
Fred M. Davis, examined and license issued.
Richard O'Brien, examined and license issued.
Patrick J. Colbert, examined and license issued.
Frederick T. Converse, examined and license issued.
Richard H. Lyna, registered and certificate issued.
Edgar W. Sanborn, examined and license issued.
Michael J. Finn, examined and license issued.
Clarence A. Goodhue, registered and certificate issued.
Charles W. Bateman, examined and license issued.
Joseph D. McLaughlin, examined and license issued.

Two plumbers have been examined for master's licenses, and eight for journeymen's licenses ; no applicant for a license has as yet failed to pass the required examination.

There were four plumbers examined for the position of inspector of plumbing.

The receipts of the board from all sources amount to \$64.00, for which amount the clerk of the board holds the receipts of the city treasurer.

The expense attending the practical examinations during the past season is as follows :

Paid for materials and workshop, \$68.47.

Respectfully submitted,

D. E. SULLIVAN.

W. B. HOWE,

P. A. CLIFFORD,

Board of Examiners of Plumbers.

RULES FOR PROCEDURE, ADOPTED BY THE BOARD OF EXAMINERS OF PLUMBERS, CONCORD, N. H.

ARTICLE I.

SECTION 1. The board shall hold their regular meetings upon the first Friday of each month, at 8 o'clock P. M., at their office in the engineer's department, Concord, N. H.

SEC. 2. The officers shall consist of a chairman and clerk, elected annually at the regular meeting in April.

SEC. 3. The chairman shall preside at all meetings; the clerk shall keep all records. The chairman may call a meeting of the board at any time by notifying the clerk; the clerk shall then notify the other members of the board, and shall also give notice of the regular meetings.

ARTICLE II.

SECTION 1. Applications for examinations will be received at any regular meeting.

SEC. 2. Applications must be made out in full upon application blanks furnished by the board; each application shall be accompanied by the fee of \$1.00 (required by law) before being received by the board.

SEC. 3. The examination shall consist of a written, oral, and practical exercise, of such character as shall fairly test the fitness and qualifications of the applicant for the trade, business, or calling of plumbing.

ARTICLE III.

SECTION 1. In the practical examination each applicant will be required to make at least three different kinds of wiped joints, and caulk one joint in cast-iron soil pipe.

SEC. 2. Each wiped joint shall be marked according to the following schedule (the number of points as set forth opposite each item being the maximum, the minimum being 0):

POINTS FOR WIPED JOINTS.

1. For strength	5
2. For shape	3
3. For smoothness, inside pipe at joint	3

4. For solder run in a little 2
5. For solder run in a bad 3
(If hole is burnt in pipe, 1, 2, 3, 4, and 5, each marked 0.)
6. For smoothness outside, or cracked joint 4
7. For straightening and dressing pipe 1
8. For tempering solder 1
9. For straight, inserting and preparing ends of pipes 2
10. For setting up work 1

Each caulked joint shall be marked according to the following schedule (the number of points as set forth opposite each item being the maximum, the minimum being 0) :

1. Fir rolling oakum 3
2. For cracked joint 2
3. For running joint with one pour 3
4. For caulking when too hot 1
5. For cutting off surplus lead 1
6. For caulking lead home 2
7. For oakum slipped inside pipe or lead run in 5
8. For joint leaks when filled with water 5
9. For joint not full all way round 2
10. For leak, all hacked up 1

The total number of points for all joints shall be added, multiplied by four, and divided by the number of joints made; this result shall be the per cent. obtained in the practical examination.

SEC. 3. The written examination shall consist of at least twenty questions for an applicant for a journeyman plumber's license, and at least thirty questions for an applicant for a master plumber's license. The written examination shall be marked 100 per cent. for a perfect paper, each question having equal weight.

SEC. 4. The oral examination shall consist of questions asked by the members of the board, and the inspection of such charts pertaining to plumbing systems as the board may submit; the applicant shall be marked 100 per cent. for a perfect examination.

SEC. 5. The applicant (if for a journeyman plumber's license) shall not fall below 70 per cent. in the practical examination, 40 per cent. in the written examination, and 50 per cent. in the oral examination.

SEC. 6. The applicant (if for a master plumber's license) shall not fall below 70 per cent. in the practical examination, 70 per cent. in the written examination, and 70 per cent. in the oral examination.

SEC. 8. The standing of each and every applicant shall be at least 70 per cent. ; otherwise the applicant shall be refused a license.

SEC. 9. Falsehood or fraud in the application or examination shall be cause for dismissal of the application and refusal of a license.

SEC. 10. Unsuccessful candidates of either grade may repeat their applications after an interval of three months, and, if again unsuccessful, at intervals of not less than six months after the second examination.

SEC. 11. The names and standing of all persons examined shall be formally entered upon the records of the board.

REPORT OF THE HISTORY COMMISSION.

To the City Council:

It is gratifying to report that the work of writing the History of Concord is nearing completion. The general narrative, which was assigned to Hon. Amos Hadley, will be finished in a few weeks. The following special articles are already completed:

“The Material Progress of Concord.”

“The Canals, Stage Lines, and Inns.”

“The Railroad History.”

“The Bench and Bar.”

“Concord the Political Centre.”

“The Medical History.”

“The Social Life of Concord.”

“The Asylum for the Insane.”

“The Newspaper History.”

“The Rolfe and Rumford Asylum.”

“The State Prison.”

“The Topography, Forests, and Agriculture of Concord.”

“The Ferries, Bridges, and Freshets.”

Of the remaining special topics, “The Church History,” “The Schools,” “Concord in the Rebellion,” and “The Fire Department,” it is expected that they will be ready by the time Mr. Hadley completes his assignment. With the manuscript in hand there is yet before the commission the work of compiling and editing, the making of an index, and the publication. The list of illustrations is complete, and they are now being prepared. There is no present reason why the contract for printing may not be made at an early date and the history be ready for delivery to subscribers and purchasers soon after.

The public, as a rule, have correctly gauged the magnitude of the undertaking, and have been considerate in all their in-

quiries regarding its progress. It is but justice to the commission, however, and to those who have voluntarily associated themselves with the commission in assisting in the preparation of the history, to give a brief statement of their labors.

The project was first conceived in December, 1895, and the city government appointed a commission and appropriated \$200 to develop a plan. The commission met and organized, and in due course of time presented its plan of procedure to the city government. This plan contemplated a history which should combine a general narrative of Concord from its beginning to the present time, with a series of special articles on the topics enumerated above. The commission asked of the city government the loan of the credit of the city to the extent of \$2,500, and offered to produce subscriptions as collateral in advance of the publication. The request of the commission was granted by the city government, and the commission had within a year of its organization subscriptions to the amount of \$3,300 in their possession. It is the experience of those who have had to do with town histories that the sales following the publication of a town history will equal the subscriptions obtained before the work is published. The commission, therefore, feel justified in saying that the history will ultimately be without cost to the city. To secure this result the city will be indebted to those who have generously given of their time for this very commendable object.

The commission was appointed to serve without compensation, and no member thereof has drawn anything from the city treasury for his services as commissioner, while two, at least, have contributed financially to the success of the enterprise. The commission consists of the Mayor (*ex-officio*), Benjamin A. Kimball, Lyman D. Stevens, Amos Hadley, John M. Mitchell, Howard F. Hill, and James O. Lyford. All are engaged in active business, yet all have given their time freely to the meetings of the commission. During five years the commission has had more than a hundred and fifty meetings, and no official board has ever had better attendance at its meetings. These meetings have been held at the office of Mr. Kimball at the railroad station, which he very early donated to the use of the commission. Since the first manu-

script was ready for examination the work of each writer has been read to the full board for comment and criticism. For the past two years, with the exception of the summer seasons, the commission has devoted Saturday afternoons to this work. Upon invitation, Lewis Downing, Joseph B. Walker, Henry McFarland, Charles R. Corning, and John C. Ordway have attended the meetings of the commission and given it the benefit of their suggestions and assistance. The general plan of the history has not been changed as the work progressed, but, as we neared the end of the century, it was deemed best to bring the history down to the close of 1900.

The following articles have been contributed to the history by the authors: "Canals, Stage Lines, and Inns," and "The Railroad History," by Henry McFarland; "The Medical History," by Senator Gallinger; "The Church History," by James O. Lyford; "The Schools," by John C. Ordway; "Concord in the Rebellion," by Howard F. Hill; "The Asylum for the Insane," "The State Prison," "The Rolfe and Rumford Asylum," "The Topography, Forests, and Agriculture of Concord," "The Ferries, Freshets, and Bridges," by Joseph B. Walker; "The Newspaper History," by Frank W. Rollins.

It has been the object of the commission to produce the history without expense to the city further than the loan of its credit. To this end the commission has sought voluntary contributions from those who were in a position to make them, and for such literary labor as it has given compensation the price paid is far from adequate for the time spent and the material prepared. To secure this result the contributions and employments have had to be subsidiary to other duties, which necessarily has delayed the completion of the history.

History is valueless unless accurate, and while it is too much to expect that the work the commission has supervised will be entirely free from mistakes, it is the feeling of the commission that they will be commended by the citizens for taking such time as is necessary to properly finish their work.

JAMES O. LYFORD,

Secretary.

CONCORD, N. H., Jan. 1, 1901.

CEMETERY DEPARTMENT.

REPORT OF COMMISSIONERS.

To the City Council of the City of Concord, N. H.:

Your commissioners of cemeteries have but little to report. The expenditures during the year have been small, as the appropriations placed at our disposal have prevented any permanent improvements.

The grounds of both cemeteries have been kept in good order, and many minor improvements have been made.

There have been one hundred and eighty (180) burials made during the year.

Your commissioners intend to build additional iron fence on the north side of Blossom Hill Cemetery during the coming year.

The much needed waiting-room and chapel is still unbuilt. Has Concord no loyal, generous resident who will place in this city of the dead a chapel, either as a memorial to some loved one or as a lasting reminder of his own philanthropy? Many other cities are more fortunate in this respect, and the frequent use of these cemetery chapels testifies to their necessity.

Respectfully submitted,

JOHN E. ROBERTSON,

FRANK P. ANDREWS,

CHARLES G. REMICK,

FRANK J. BATCHELDER,

GEORGE A. FOSTER,

GEORGE O. DICKERMAN,

Commissioners of Cemeteries.

GEORGE O. DICKERMAN, *Secretary.*

MILLVILLE CEMETERY.

To His Honor the Mayor and City Council :

CITY EXPENSES

FROM JANUARY 1 TO DECEMBER 31, 1900.

Being an itemized account, made up from the books of the City Auditor, of the payments made by the City Treasurer on account of

RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1900, and salaries and committee service have been paid for the full municipal year.
